TERMS OF SALE

These terms of sale are designed to conform to the Amended Rules for Public Auction Sales in New York City by the Department of Consumer Affairs and the Bylaws of the Professional Numismatists Guild, Inc.

1. This public auction sale is conducted pursuant to these Terms of Sale by licensed and bonded auctioneers, Harvey G. Stack, #0522763 and Lawrence R. Stack, #0798114.
2. **Each bidder, by bidding in the sale, agrees that a 15% BUYER'S CHARGE will be added to the "hammer price" or winning bid of each lot as determined by the auctioneer.** This 15% BUYER'S FEE will be added to the invoice of each successful bidder over and above the actual sum bid or offered. The Buyer's Fee applies regardless of a bidder's affiliation with any group or organization, and is imposed on all bidders. No lots will be delivered or shown at the auction. Auction sales are strictly for cash and must be paid for promptly in U.S. funds. STACK'S reminds you that all bidders personally guarantee prompt payment in full. Checks are permitted with identification acceptable to STACK'S. On any accounts past due, STACK'S reserves the right to extend credit and impose periodic charges as stated in these Terms of Sale or on the invoice or statement. Buyer agrees to pay the reasonable attorney fees and costs required to collect on such past due accounts. All lots delivered in New York State are subject to applicable Sales Tax. Buyer agrees to pay any sales tax, use tax, and any other applicable taxes that now, or hereafter, are found to be due by virtue of the sale, and to indemnify and hold STACK'S harmless for any sales or other taxes due thereunder, including reasonable attorneys fees, costs and any interest or penalties assessed. Buyer shall also pay all shipping and handling charges where applicable.
3. Purchasers claiming exemption from such taxes must submit resale or exemption certificates or other proof of exemption. Out-of-state Purchasers taking delivery in New York must provide an OSR certificate or pay applicable taxes due. All purchasers represent that they are not seeking to acquire goods for personal, family, or household purposes, but are bidding for resale purposes; and those submitting OSR's additionally represent that they are professionals, knowledgeable and fully aware of what they are purchasing, a representation upon which STACK'S relies in agreeing to sell to Purchaser. Buyers picking up lots may be required to confirm this agreement in a separate writing.
4. STACK'S is not responsible for your errors in bidding. PLEASE BID ON THE CORRECT LOT.
5. All persons seeking to bid, whether in person, by an agent or employee, or by mail, must have a catalogue and register to bid. By submitting a bid, whether in person, by mail, or through an employee or agent, the bidder acknowledges receipt of the catalogue, and agrees to adhere to these terms of sale. The auctioneer may decline to recognize any bidder who does not have a catalogue and has not registered and been given a paddle number. Any prospective bidder may be required to establish credit references or submit a deposit of 25% of their bids. All new bidders should be prepared to establish credit with the auctioneer prior to registering to bid.
6. By bidding, purchasing or offering to purchase in this sale, even if as an agent, or on behalf of a corporation or for another individual, each bidder personally guarantees prompt payment and agrees to be personally liable for the consequences of bidding; all bidders also personally guarantee prompt payment in full, including without limitation, BUYER'S FEE, taxes, surcharges, postage, handling charges, storage costs and insurance charges.
7. STACK'S reserves the right to require payment in full before delivering lots to a successful bidder, and reserves the right to require the principals, and directors of any corporate bidder to execute a guarantee of payment (which, in any event they do by having an agent or employee bid in the sale) prior to allowing a bid to be placed or recognized.
8. STACK'S reserves the right to impose a late charge, based solely upon Purchaser's failure to remit full and timely payment, and which late charge is not related to any necessary storage of the material purchased. Said late charge is calculated at a rate of 1½% per month (18% per annum), based on the purchase price if payment has not been made in accordance with these Terms and Conditions of Sale. Purchases not collected within thirty (30) days of the date of sale may, at the sole option of STACK'S, be resold for Purchaser's account by STACK'S, with Purchaser liable for any deficit after STACK'S receives a commission for the same in accordance with its agreement, and thereafter deducts all expenses associated with the sale, including reasonable attorneys fees.
9. Bids are NOT accepted from minors. By bidding in this sale, the bidder represents and certifies that they are of legal age, are authorized to make the bid that they make, and that the purchase is not a consumer sale or consumer credit transaction.
10. **Title remains with STACK'S until paid for in full.** Should Purchaser take any action under Title 11 of the U.S. Code, or any state insolvency law, Buyer agrees to promptly return to STACK'S, any lots not paid for. The Buyer agrees to keep the lots fully insured until paid for. Risk of loss is on the Buyer.
11. The highest bidder as determined in the sole discretion of the auctioneer shall be the Buyer. If the auctioneer determines that a dispute has arisen between two or more bidders, the lot may be immediately put up and sold again. Bidders with whom the dispute previously arose shall be without further recourse for any damages whatsoever.
12. If you bid by mail, **mail your bid sheet early.** Mail bidders agree to and are subject to these terms of sale just as if they were floor bidders.
13. The auctioneer reserves the right to refuse ridiculously low bids, which in the auctioneer's sole discretion, are felt not to have been made in good faith. The auctioneer reserves the right to open the lot at a reasonable price determined solely by the auctioneer. The auctioneer shall also have sole discretion to set initial, and subsequent bidding increments, and to accept, or to decline to accept, challenges to those bidding increments. All bids not in whole dollar amounts may be rounded downward by the auctioneer. The auctioneer may open bidding on any lot by placing a bid on behalf of the Seller, a mail bidder, STACK'S, or another participant in the sale. The auctioneer may bid further on behalf of the Seller up to the amount of the reserve by placing successive or consecutive bids for a lot, or by placing bids in response to other bidders. The auctioneer may bid for his, or its, own account at any auction and may have access to information concerning the lots, and items contained in them, that are not otherwise available to the public. Estimates given are for the general guidance of the bidder and represent the opinion of the auctioneer as to the fair market value of the numismatic item at the time of cataloging, based on experience and comparable sale, if applica-

ble. The actual price realized may be higher, or lower than the estimate. If a lot is reserved, the reserve may not exceed the maximum estimated price.

14. Auction sales are not approval sales. In the event of non-payment by the Buyer, STACK'S reserves any and all rights that it would be entitled to under the Uniform Commercial Code, including Buyer's consent to file a financing statement without need of Buyer's signature, and to offset any sums due on any future consignment or purchase or monies or goods in possession of STACK'S or its assigns.
15. All bidders are encouraged to carefully examine all lots prior to the sale. No lots will be shown at the sale. STACK'S assumes no risk, liability or responsibility for the material (or other) facts stated concerning the numismatic item, except as specified herein. All floor buyers should acquaint themselves with the property sold since STACK'S will assume that they have done so and requires that the Purchaser represent that they have. Bidders are deemed to have satisfied themselves as to all of the matters set forth in the terms of sale.
16. STACK'S, as agent, offers a LIMITED WARRANTY that any numismatic item sold is authentic (i.e., not counterfeit, that its date or mintmark has not been altered, and that the coin has not been repaired as those terms are used in the trade). Except as set forth in this limited warranty and as may be required by the arts and cultural affairs law, and any other law or regulation, all other warranties of authenticity of authorship, whether express or implied, are hereby disclaimed.
17. Except as otherwise stated herein, all items offered in this catalogue are **GUARANTEED TO BE GENUINE** and correctly attributed as defined below.
18. (a) NO LOT may be returned for any reason whatsoever without the prior written consent by STACK'S, or, in any event, if it has been removed from its original container. **No lots purchased by those who have viewed the lots may be returned**, unless the limited warranty provided in these terms of sale permits it.
(b) Grading is a subjective description in the opinion of the cataloguer as to the state of preservation, method of strike, and overall appearance of a particular coin or lot. The term "proof" or "specimen" is used to describe a method of manufacture, and is not a grade or condition or an attribution.
(c) STACK'S does not represent that a numismatic item has or has not been cleaned; that any toning is natural or artificial; that any coin catalogued will meet the standards, or the grade, of any third party or third party grading service; that a numismatic item has a particular provenance or pedigree; that a numismatic item is struck or not struck, or produced or not produced in a particular manner or style.
(d) Adjectival descriptions and terminology (which can and does vary among experts and knowledgeable purchasers), when utilized in the catalogue, are strictly the opinion of the cataloguer and shall not be deemed to be part of the description; i.e. it is an opinion only and not a warranty of any kind.
(e) Grading descriptions in this catalogue are provided strictly for the convenience of those who bid by mail and who are unable to personally view the coins, and represents the cataloguer's opinion of its state of preservation. Those attending the sale, and those bidders who actually view the lots should draw their own conclusions as to the state of preservation or grade of the numismatic item.
(f) STACK'S may utilize numerical or adjectival descriptions, and may include lots that have been graded by others. Opinions offered with respect to numismatic properties offered for sale by STACK'S are made at the time that the numismatic item is catalogued, and do not refer to any prior or subsequent time.
(g) Where STACK'S sells a numismatic item graded and encapsulated by a grading service, Buyer acknowledges and agrees that other grading services, STACK'S or knowledgeable purchasers might reach a different conclusion as to the state of preservation of a particular item, and that STACK'S has presented the service's description of the encapsulated item for accommodation only. Any such information provided by STACK'S is the opinion of the third party, without recourse against STACK'S in any way whatsoever.
(h) **Except as otherwise expressly stated in the Terms of Sale, STACK'S and its agents and employees make no warranties or guaranties or representations, and expressly disclaim all warranties and guaranties and representations, including, without limitation, a warranty of merchantability, in connection with any numismatic properties sold by STACK'S.**
(i) All oral and written statements made by STACK'S, are statements of opinion only and are not warranties or representations of any kind, unless stated as a specific written warranty, and no employee or agent of STACK'S has authority to vary or alter these Terms of Sale. Any alteration shall be effective only if in writing and signed by a member of the firm.
(j) If not so stated expressly, the grade, artisanship, provenance, or attribution is the firm's opinion only on which no third party, including the bidder, is entitled to rely.
(k) STACK'S assumes no risk, liability or responsibility for the material (or other) facts stated concerning the numismatic item, except as specified herein.
19. Unless otherwise stated, STACK'S acts only as agent for a Consignor and makes no independent warranty of title. STACK'S offers the following LIMITED WARRANTY to Buyers with respect to all numismatic items offered for sale. STACK'S warrants to all Buyers that the Consignor or the Seller has warranted good title to property offered for sale. Any such warranty is predicated on the Owner or prior owner making the same warranty to STACK'S, upon which the firm relies. In the event that it is finally determined that the Purchaser has not acquired transferable title, STACK'S shall reimburse the Purchaser (if full payment has already been made) in accordance with these Terms of Sale, and Buyer agrees that this is full compensation for any loss whatsoever, whether actual or otherwise. Tender of the check by STACK'S to Buyer at the address specified on the bid sheet or registration form shall end the obligation of STACK'S to the Buyer, even if the check is not endorsed or cashed. STACK'S and the Consignor make no representations or warranty that the Purchaser acquires any reproduction rights or copyright in property purchased at the sale.
20. STACK'S further expressly disclaims all warranties relating to the grade, condition, identification of the periods or date of coining or manufacture or methods of manufacture of property which is inaccurate, or may be proved inaccurate, by means of scientific process or research which is not generally accepted for use until after the sale.
21. STACK'S reminds the Buyer that the grading or condition of rare coins may have a material effect on the value of the

items purchased; that others may differ with the grading opinions or interpretations of STACK'S; that such difference of opinion (including whether the coin has been cleaned, or is or is not of a particular grade or quality) is not grounds to return an item purchased; and that all sales of items viewed by a Purchaser in advance of a sale, even if the sale is by mail, are final.

22. By purchasing in this sale, Buyer agrees that they shall have no recourse against the Consignor for any reason whatsoever. In the event that a warranty is offered with respect to grade or state of preservation or condition, it shall be a specific warranty, in writing, signed by a member of STACK'S, and shall specify its terms and conditions and duration. If any numismatic item is damaged in its removal from encapsulation, or during its encapsulation, it is at the sole risk of the Purchaser. Because of the fungibility of numismatic items, any item removed from its holder may not be returned for any reason whatsoever.
23. (a) On any claim made by a bidder, STACK'S must be advised in writing sent within seven days after receipt of the material, or the date of the sale, whichever is the later; these dates apply whether or not the Buyer has received the material. The disputed property must be returned to STACK'S in the same condition as sold by STACK'S, in the same holder.
(b) These conditions are binding and absolute unless varied in writing by a principal of STACK'S or if the bylaws, rules or regulations of the Professional Numismatists Guild, Inc., provide for a longer period, or give the Buyer a greater right, in which case such bylaws, rules or regulations shall prevail. Any and all claims of the Buyer made in violation of the Terms of Sale shall be deemed waived, and the Buyer shall be without further recourse.
24. If STACK'S, in its sole discretion, determines that any numismatic property is substantially and materially different from that represented in the catalogue of sale, or in any written advertisement or material, the sale shall be cancelled and STACK'S shall refund the purchase price to the Buyer. Unless provided otherwise in these terms or the PNG bylaws, that shall be STACK'S sole obligation to Buyer.
25. The auctioneer and cataloguer, STACK'S, reserves the right to include its own material in any auction sale. The auctioneer may have direct or indirect interests in these, and other items (other than its commission), and may collect a minimum price in addition to the selling commission. This paragraph shall be deemed a part of the description of all lots contained in the catalogue. The catalogue shall also be deemed a part of any invoice issued by the auctioneer. The auctioneer may make loans or advances to consignors and/or prospective purchasers. The Consignor may be permitted to bid on his, her or their own articles and to buy them back at the sale. Any Buyer who bids on or purchases their own goods is required to pay for them, in full, as the terms of sale provide for together with the full buyer's commission, and any other applicable surcharges, postage, handling, insurance fees and taxes, without rebate of any kind whatsoever, unless provided for otherwise by contract with the auctioneer. The auctioneer reserves the right to make accounting adjustments in lieu of payment. Settlement will follow the auction. The prices realized reflect the final price called by the auctioneer and may include a bid of a consignor reacquiring their lot.
26. STACK'S, the auctioneer, and employees are "insiders" and may have access to confidential information not otherwise available to the public with respect to value, provenance, availability, and other factors. Purchasers should make themselves acquainted with the numismatic items that they are purchasing and avail themselves of the services of outside consultants prior to engaging in any purchase. Bids are so much per LOT. No lots will be broken up unless otherwise stated.
27. No bidder shall have any claim against the auctioneer, or STACK'S, for improper sequence of offering a lot.
28. On bullion items, bullion-like items, and encapsulated items graded by a grading service, Buyer agrees that there shall be no right of return for any reason whatsoever. Buyer further agrees that due to market volatility, in event of non-payment, STACK'S shall be entitled to damages that are the greater of selling price or market, together with any supplementary or additional costs.
29. STACK'S at any time may rescind the sale in the event of non-payment or breach of the warranty of title.
30. The sole remedy that any participant in the auction shall have, whether bidding in person, by mail, or through an employee or agent, for any claim or controversy arising out of the auction shall be a refund of the original purchase price and premium paid, if any. Interest shall be paid by STACK'S at a rate of no greater than nine per cent (9%) per annum, up to a maximum of six (6) years, unless the rules of the Professional Numismatists Guild, Inc. provide for a higher rate of interest or a longer period of time, in which case such rules shall prevail. A lower rate, or shorter period, may be decided by the arbitrators. Upon payment as determined by the arbitrators, or in full at the maximum rates set forth above, or at an agreed rate, STACK'S shall be deemed released from any and all claims of the bidder arising out of or in connection with the sale of such property. Purchaser agrees to execute prior to delivery of any refund any documents reasonably requested to effect the intent of this paragraph. By bidding in this sale, all bidders consent to these terms and all other terms of these conditions of sale.
31. **STACK'S hereby disclaims all liability for damages, incidental, consequential or otherwise, arising out of or in connection with the sale of any property by STACK'S to Purchaser.** All bidders, even if unsuccessful purchasers, agree to abide by this condition, and all other conditions of sale.
32. All rights granted to the Purchaser under the within terms of sale are personal to the Purchaser. Purchaser may not assign or transfer any of these rights to any other person or entity, whether by operation of law or otherwise. Any attempt so to assign or transfer any such rights shall be absolutely VOID and unenforceable. No third party may rely on any benefit or right conferred by these Terms and Conditions of Sale and terms of warranty on any bidder or Purchaser.
33. "Purchaser" shall mean the original purchaser of the property from STACK'S and not any subsequent owner or other person who may have or acquire an interest therein. If Purchaser is an agent, the agency must be disclosed at the time of sale, otherwise the benefits of the warranty shall be limited to the agent and not transferable to the undisclosed principal.
34. Should any third party attempt to utilize any warranties contained herein, they shall first give STACK'S thirty (30) days written notice by Registered Mail or Certified Mail Return Receipt Requested during which time STACK'S may,

should it choose to contest the third party's claim, ask the Professional Numismatists Guild, Inc., or the American Arbitration Association to appoint a panel of three arbitrators skilled in the field to make such a determination at New York, N.Y. By seeking to use such remedy, the third party unequivocally and without reservation consents to binding arbitration, and its conclusive and binding determination of any alleged damages as a sole remedy. With respect to any other pertinent notice requirements, venue and personal and subject matter jurisdiction, said third party is bound to the provisions pertaining to bidders, buyers and purchasers, as otherwise provided for in these Terms of Sale.

35. In the event STACK'S shall, for any reason, be unable to deliver the property sought to be purchased, its liability therefore shall be limited to the rescission of the sale and refund of the purchase price and buyer's premium. **STACK'S hereby disclaims all liability for damages, incidental, consequential or otherwise, arising out of its failure to deliver any property purchased, and all bidders agree to this disclaimer.**
36. If it is determined that a bailment relationship exists while the material purchased is being held by STACK'S, for Purchaser, said relationship constitutes a gratuitous bailment only, solely for the benefit of the purchaser/bailor, as defined by the laws of the State of New York.
37. As a condition of bidding, bidder acknowledges that numismatic auction sales are unique in terms of their tradition and industry practices. Each bidder agrees that **any claim or controversy whatsoever arising out of this sale shall be settled as follows:** if demanded by either buyer, or STACK'S by binding arbitration at New York, New York, under the rules then obtaining of the Professional Numismatists Guild, Inc., or as PNG rules may provide, the American Arbitration Association. In the event that a dispute arises between STACK'S and a non-member of the PNG, this means that the American Arbitration Association, at New York, N.Y., shall have exclusive jurisdiction over the controversy. UNITED STATES COINS

U. S. COLONIAL COINS

MASSACHUSETTS SILVER COINS

RARELY OFFERED NOE 10 OAK TREE SHILLING

Lot No. 1

- 1 **1652 Oak Tree Shilling. Noe 10. Crosby 6a-E1. The Delicate or Ghost Tree. Rarity-6**, or higher. 67.7 gns. Fine to Very Fine. Surfaces are smooth and glossy and are an exquisite lavender-gray hue. Planchet is slightly wavy and exhibits the angularly cut edges associated with this variety. The tree on Noe 10 was engraved very shallowly, and it wore very quickly from the die, leaving only the “ghost” impression as seen on this coin. Garrett’s amazing coin exhibits a full tree, but between die and circulation wear, most specimens exhibit little or no tree. Noe 10, 11 and 12 are all from the same die in different states of re-engraving, and the misshapen ‘O’ of ‘DOM’ is a readily visible diagnostic of this commonality. Andy Hain collected Massachusetts silver for a dozen years, so it is a testament to this variety’s difficulty that this beautiful but well-circulated coin was the best he could find.

Ex Hain Family Collection (Stack’s, January 2002, lot 36); earlier ex Vlack Collection.

Lot No. 2

- 2 **1652 Oak Tree Shilling. N.11. Cr.6b-E2. Rarity-6**. 68.2 gns. Very Fine. Here is a specimen from the same dies as Noe 10, but now the tree has been re-engraved more deeply and properly, ensuring a full impression on coins struck from this die. Surfaces are a pleasing golden-gray in the centers and on the legends, while the fields are generally a deeper steel-gray hue. Many very old small tics and scratches, now long since toned over, are visible mostly in the central areas of both sides. Well-centered and exhibiting the angularly cut edges associated with Noe 11, this coin exhibits essentially full legends, with only the missing tops of ‘IN M’ worthy of note. This variety is represented in many of the major collections, such as NN 60th, Norweb, Picker, and Hain, and this specimen is on a par with the Norweb piece.

WELL PEDIGREED OAK TREE SIXPENCE

- 3 **1652 Oak Tree Sixpence. N.20. Cr.1a-D. Rarity-6.** 33.8 gns. Choice Very Fine, or finer. Steely blue-gray tones highlight this dominantly medium-gray specimen. Better centered and much more evenly round than the Hain and Garrett coins, this specimen's legends are fully on the coin and there is only a bit of empty space at the elongated left end of the obverse. Two minor horizontal creases come into better view under magnification, and some minor surface roughness at the 'VS' and 'I' in the obverse legends weaken these letters. No traces of an undertype are visible, unlike the Garrett and Hain coins, which were possibly struck over cut down Shillings. The rarity for this variety, as stated in the catalogue of the Hain collection, is conjectural. Oak Tree Sixpences, although represented by over half a dozen Noe numbers, are overall *very scarce*, with none rating less than R-5. The present specimen, with its steely patina, would make a lovely specimen for a collection of Massachusetts silver by denomination and type. (**SEE COLOR PLATE**)

Ex William Poillon Collection (Thomas Elder, December 6, 1918, lot 614). Lot envelope included.

ATTRACTIVE NOE 1 PINE TREE SHILLING

Lot No. 4

- 4 **1652 Pine Tree Shilling. Large Planchet. N.1. Cr.12-I. Rarity-2.** 65.4 gns. About Very Fine. Noe 1 is the quintessential type coin among the Pine Tree Shillings, as the dies are attractive and well made and the flans used for this variety are generally very broad, as here. Surfaces are a glossy silver-gray and exhibit light marks associated with circulation wear. Well-centered, with only the tops of 'GLAND' missing on the reverse. Two creases extend diagonally across the obverse, fortunately affecting only the tips of the uppermost left tree branches. Here is the perfect specimen for the collector looking for a mid grade specimen of this attractively designed piece of Massachusetts silver.

NOE 2 PINE TREE SHILLING

Lot No. 5

- 5 **1652 Pine Tree Shilling. Large Planchet. N.2. Cr.4-F. The Straight Tree. Rarity-5.** 31.6 gns. Very Good. Here is a coin that performed its job in commerce extremely well. Clipped down to just over 40% of statutory weight, this coin continued to circulate extensively, achieving its now smooth, golden-gray appearance. Essentially problem-free except for two slight bends, this specimen is struck from a late state of the obverse die in which the tree has begun to fade, especially towards the top. A perfect piece for curiosity or the specialist.

IMPRESSIVE HIGH GRADE NOE 8.2 PINE TREE SHILLING

(Enlarged)

Lot No. 6

(Enlarged)

- 6 **1652 Pine Tree Shilling. Large Planchet. N.8.2. Cr.-. Rarity-6.** 71.3 gns. Extremely Fine and an absolutely lovely specimen of this **rare** variety. Surfaces are very gently worn and smooth, featuring rose-gold and steel blue iridescence among this coin's dominant pearly gray patina. Edges were angularly cut to achieve statutory weight prior to striking, giving this coin an impressive arm's length appearance. Well-centered, although the flan was not large enough to accommodate the full obverse legend, cutting off the tops of 'THVS' of MASATHVSETS. A tiny planchet split is noted between the letters 'AN' in ENGLAND. Noe 8.2 is an advanced die state of Noe 8 and was documented by Richard Picker in his 1976 article. Although there are many diagnostics for the attribution of Noe 8.2, the most glaring one is the extension beyond the bead circle of the die break at the upper reverse. Hain had an impressive 7 specimens of the common Noe 8, but only two, similarly high grade specimens of Noe 8.2, which both brought over \$10,000 each. The current specimen represents a wonderful opportunity to acquire this coveted Pine Tree die state variant. **(SEE COLOR PLATE)**

Ex Rare Coin Review #16.

NOE 11 RETROGRADE N'S PINE TREE SHILLING

Lot No. 7

- 7 **1652 Pine Tree Shilling. N.11. Cr.2a-A1. Rarity-4. Retrograde N's.** 69.2 gns. Very Fine. Light gold and lavender toning enriches this coin's exquisite medium gray surfaces. Generally well-centered on an ovoid planchet, much of the beaded outer border is still visible on both obverse and reverse. Tree is bold and complete, while the legends are generally complete but for some weakness at the lower reaches of both sides, caused by wear and some ancient scratches. There is a tiny crease at left reverse, and what at first glance looks like a planchet split is actually a tiny notch that has been cut from the edge. Here is a coin that is nonetheless very attractive in the richness of its beautifully original patina.

Noe 11 is easily attributed by its backwards N's and the lack of the usually encountered 'H' in the word MASATVSETS.

Lot No. 8

- 8 **1652 Pine Tree Shilling. N.13. Cr.9-G. Rarity-6.** 34.8 gns. Very Good, and exhibiting burgundy-gray surfaces that are uniformly porous, more severely so on the obverse than the reverse. The general consensus is that these are not products of the Boston mint, although the period of manufacture for Noe 13 is open to conjecture. Known specimens are on small, underweight, angular flans meant to imitate a severely clipped coin. At 34.8 grains, the present specimen is probably one of the lightest of an estimated 25-30 extant specimens; it is definitely lighter than the MHS, Norweb, Hain, and Roper specimens. Given the variety's tiny flans, no known specimens display complete legends. This specimen reads only 'SETS IN' on the obverse and 'ENGLAND' on the reverse due to off-centering or "clipping." The date and denomination are bold, but for the second 'I' of the denomination, which is virtually non-existent. **Rare.**

SUPREME ATTRACTIVE NOE 15 PINE TREE SHILLING

Lot No. 9

- 9 **1652 Pine Tree Shilling. Small Planchet. N.15. Cr.24-N.** Rarity-5. 68.8 gns. About Very Fine. A rich, gray patina defines this coin's surfaces, which also exhibit hints of lighter golden-gray tones. Generally well-centered but on a diagonally egg-shaped planchet with angular edges, resulting in the loss of the tops of some letters, especially on the reverse. This coin displays the usual weakness at the top of the tree, while the reverse is an advanced state of failure, the die breaking and sinking severely in the lower right quadrant. Here is a coin whose luscious, original gray patina and flaw-free surfaces make it a very desirable specimen.

BEAUTIFUL 1652 N.19 PINE TREE SHILLING

Plated in Crosby, Wurtzbach and Breen

(Enlarged)

Lot No. 10

(Enlarged)

- 10 **1652 Pine Tree Shilling. Small Planchet. N.19. Cr.20-L.** Rarity-5. 71.0 gns. About Extremely Fine. Rich steel and blue gray fields frame lighter golden gray devices to profound effect. An area of iridescent blue clings closely to the surface in the right branches of the tree. Perfectly centered on a round flan with a slight but perceived angularity to the edges, this coin is missing no parts of the legends and even includes some of the outer beaded border. Very well struck but for a trifling weakness at 'MA' on the obverse and 'DA' on the reverse, mostly likely the result of a thinning planchet at that area. This simply splendid coin's only flaw is a set of old scratches concentrated to the surface of the letters 'LA' and the adjacent rim.

The Crosby Collection coin and also the obverse plate coin in his *Early Coins of America*, the Wurtzbach plate coin, and Breen plate coin. The fact that these three preeminent researchers and collectors used this specimen in their collection to illustrate their references is a testament to the fact that it is *among the finest known* specimens of this variety. It is indeed finer than the Norweb-Hain and ANS specimens and is on an equal footing with the Roper coin. (SEE COLOR PLATE)

Ex Reed Hawn Collection (Stack's, May 1998, lot 37); earlier ex Carl Wurtzbach Collection; Sylvester S. Crosby Collection (John W. Haseltine, June 1883, lot 900).

RARE NOE 22 SMALL PLANCHET PINE TREE SHILLING

Lot No. 11

- 11 **1652 Pine Tree Shilling. Small Planchet. N.22. Cr.16-L.** Rarity-6. 69.9 gns. Very Fine. Deep charcoal gray fields exhibit some microscopic porosity and surround devices and legends that are worn to a lovely light gray hue. In an unusual turn of events for this variety, the obverse is perfectly centered, while the reverse is misaligned toward 5:00, making the legends tight to the rim at the lower reverse. Very well struck overall, there is a weakness at 'N' of IN on the obverse, an effect of the die breakage at the lower reverse. Planchet cutter lip noted at 5:00 on the obverse, and the die edge comes into view around 11:00 on the reverse. Here is a highly acceptable specimen of this **rare** and underappreciated Small Planchet issue.

Lot No. 12

- 12 **1652 Pine Tree Shilling. Small Planchet. N.25. Cr.16-O.** Rarity-5. 70.5 gns. About Extremely Fine. Patinated in deep graphite gray with a bit of rich russet, this specimen exhibits boldly struck devices and legends. Struck slightly off-center on both sides, affecting the tops of only a few letters. A small planchet void is noted at the upper right obverse, and there are a few thoroughly ancient scratches at the rightmost obverse. Usual crack at 'N DO' on the reverse defines this *scarce* variety.

Ex Robert C. Hall Estate (Bowers & Ruddy Galleries, October 1978, lot 1157). Lot ticket included.

CONNECTICUT COPPERS

Lot No. 13

- 13 **1785 Miller 3.4-F.1 (R-3). Mailed Bust Right.** 146.7 gns. Very Fine. Surfaces are deep chestnut brown in the fields and a lighter chocolate brown on the generally smooth devices. Surface texture is predominantly smooth and glossy, while close examination reveals some intermittent porosity. Well-centered with a full, bold date and abundant drapery and globe detail visible on the reverse. What looks like two tiny edge bruises are really, in actuality, minor planchet flaws. Here is a beautiful coin for its type that is nicer than Perkins' but not quite as fine as Taylor's.

Lot No. 14

- 14 **1785 M.4.4-C (R-3). Mailed Bust Right.** 139.0 gns. Very Fine in terms of wear. Some peripheral striking weakness is apparent at the left obverse and corresponding area of the reverse. Shades of well balanced, honest medium brown patina are accompanied by some inevitable streaks in the planchet. As was the custom of a number of early colonial collectors (Hall and Miller being two noteworthy examples), the notations "4C" and "DUP" have been delicately painted onto the obverse of this coin in white ink.

Lot No. 15

- 15 **1787 M.11.1-E (R-2). Mailed Bust Left.** 133.0 gns. Very Fine. Rich chestnut brown surfaces exhibit ruddy areas, especially at the central and lower reverse. Generally well struck and smooth, a few old circulation marks can be found on both sides, including a tiny hit below the 'T' of 'ET' on the reverse. A planchet clip is noted at 'A' of AUCTORI, and a prominent planchet cutter lip encircles about 50% of the reverse circumference from 3:00 to 9:00. The Perkins (2000) coin, which displayed slightly stronger central details, brought \$1,495.

Lot No. 16

- 16 **1787 M.14-H (R-3). Arrows at Date variety. Mailed Bust Left.** 153.8 gns. Choice Very Fine. Hard and glossy, dark brown fields surround central devices and legends that are worn to a slightly lighter brown hue. Well centered and blemish-free, this distinct variety with arrows at date features a nearly imperceptible rim clip at the top of the obverse. Struck from a late state of the dies, much later than Perkins (2000) and later than both Taylor coins. The salient feature of this die state is a pronounced sinking of the die at 'ET' on the reverse. Arrows flanking date are both visible, although the right one is a bit indistinct. Here is a beautiful coin that would find a welcome home in either a date or type collection.

Lot No. 17

- 17 **1787 M.37.13-HH (R-5). Draped Bust Left.** A lovely, wholesome Fine example. This evenly worn, medium brown coin displays only minor streaking over otherwise very smooth surfaces. There is some central striking weakness as is to be expected, as well as a few trivial ancient rim bruises, however the visual presentation is really quite nice. A very scarce variety, particularly in this condition.

Lot No. 18

- 18 **1788 M.4.1-K (R-5). Mailed Bust Right.** 113.5 gns. Very Fine. Blue-brown surfaces are uniformly porous on this *very scarce* variety. Not only is this a tough variety, it is one of only a handful of die combinations representing this head style on 1788 dated coins. The coin is struck a bit off-center toward the bottom, and a few minor rim nicks are noted on both sides. The obverse figure's nose has also been effaced by old scratches. Dies do not seem to be clashed, as is a common feature of this variety.

Although this coin is undoubtedly M.4.1-K, the sprig in the seated female's hand is missing the leaf that points to the 'E' of INDE on reverse die K. This leaf was either missing from the die or was somehow effaced from this coin due to wear or porosity.

NEW YORK COPPER

Lot No. 19

- 19 **1787 Nova Eborac. Medium Head. Reverse Figure Left.** Crosby VIII, 11; Breen 986. 140.9 gns. About Uncirculated from the standpoint of actual wear but surfaces exhibit light, even porosity and a dark greenish brown patina. Hair strands and most laurel leaves in the obverse figure are fully defined, and there is some softness of strike and wear at the seated figure's knee, breast and escutcheon. A prominent planchet cutter lip is visible all around the reverse circumference, and the reverse periphery is a trifle weak from 10:00 to 12:00. Here is the perfect type coin for the collector who prefers detail to surface quality.

VERMONT COPPER

Lot No. 20

- 20 **1788 Ryder 16.** 106.9 gns. About Very Fine. Glossy and hard, ruddy brown surfaces are free from any major defects. As usual, the centers are not fully struck up, and the centering is a bit off, cutting off only the bottoms of the date digits. Although Ryder 16 is one of the most readily available Vermont Coppers, the present example is so problem-free and appealing that it would make the ideal specimen for a middle grade Colonial type set.

EXCITING MINT STATE FRANKLIN PRESS TOKEN

Lot No. 21

- 21 **1794 Franklin Press Token. Brilliant Uncirculated.** Plain Edge, 124.1 grains. Printing press, Latin legend (*From it*) *Spring Learning and Liberty*. Shown is the press at which young Benjamin Franklin worked in Lincoln's Fields, London, in 1726. Issued by Watt's Printing Works in the 18th century British tradesmen's series. Delightful light glossy brown.

Ex Stack's June 1973 Sale, lot 852.

FASCINATING PROOF CASTORLAND MEDAL

Lot No. 22

- 22 **1796 Castorland Medal Restrike. Breen 1062. Choice Brilliant Proof** with claims to Gem. Silver, 32.5mm, 11.65 grams. Reeded edge also bears Pointing Hand Privy Mark and word ARGENT of 1860-1879. Struck with the original dies, identified by irregular old-style letters, notably in CASTORLAND below the mural-crowned city goddess. The reverse shows the beginning of the die bulge at PARENS. Castorland was a settlement-refuge of Frenchmen fleeing the Revolutionary Terror near present-day Carthage, NY. Walter Breen argued that reeded edge originals weighing 14.45 to 15.45 grams were equal to the French silver Half Ecu, but most numismatists agree that the pieces were Jetons or medals struck to publicize the new colony. These reeded edge 19th century Restrikes are very scarce, and must not be confused with modern restrikes from copy dies showing even lettering and plain edges.

U. S. HALF CENTS

HANDSOME 1793 HALF CENT

(Enlarged)

(Enlarged)

Lot No. 23

- 23 **1793 Breen 1, Cohen 1 (R-4). Long 7, L above Brow, Period after AMERICA.** Very Fine-25. Boldly detailed obverse shows 'T' of LIBERTY over juncture of hair and forehead, reverse wreath shows 16 leaves at right. Reverse center is typically weakly struck but the overall quality of this example of the first date and variety must be called excellent. Pleasing light brown fields join with lighter tan devices to provide bold beauty. (*SEE COLOR PLATE*)

1795 PLAIN EDGE, NO POLE HALF CENT

Lot No. 24

- 24 **1795 Br.6c, C.6a. No Pole, Triple Leaf at IT, Plain Edge.** Extremely Fine-40 or better. Handsome Liberty head faces right, cap behind is without a pole. Reverse shows berry just left of bow tie. Struck over cut-down Talbot, Allum & Lee Token and showing *AL/ NEW* clearly just left of date, *OM* among the denticles above *STATES*. Splendid smooth golden tan surfaces are of remarkable sharpness, a mere hint of weakness is noted at OF.

- 25 **1797 Br.3a, C.3b (High R-4). Lettered Edge. Low Head, Triple Leaf AME.** Fine-12. This generally pleasing coin is distinguished by lighter, near-tan devices. The strike is a trifle off center, adding to the coin's visual fascination. The obverse shows the head placed too low, with a short pole to the cap. The reverse wreath is highly distinctive with 17 leaves on each branch and a bold triple leaf below 'AME'. A glass detects a light, but general porosity.

- 26 **1803 Br.1, C.1.** About Uncirculated-55. This delightful medium brown coin shows faded lustre outlining the sharply defined reliefs. This reverse is distinguished by the fraction bar joining the right ribbon and a bisecting die crack from 'ST' to 'AM'. A glass reveals a few scattered tics of little visual import. NGC AU55BN.

IMPRESSIVE 1793 SHELDON 4 CHAIN CENT

(Enlarged)

Lot No. 27

(Enlarged)

- 27 **1793 Chain. Sheldon 4. AMERICA.** The variety with a period on the obverse after the date and LIBERTY. Choice Very Fine-30 and an honest, unusually smooth specimen. The legends, chain, hair curls, and facial definition are all quite bold. Shades of medium brown patina accent surfaces that are amazingly free of porosity for a coin of this type. There are a number of ancient shallow bruises situated primarily along the rims, however the overall visual allure of this **very rare and important** coin far surpasses the typically encountered survivor. An impressive example and quite worthy of a premium bid. (*SEE COLOR PLATE*)

APPEALING 1793 SHELDON 8 WREATH CENT

Lot No. 28

- 28 **1793 Wreath. S.8. Vine and Bars Edge.** The edge device definition, however, is weaker than normally observed. Fine-12 or thereabouts. This completely honest specimen exhibits well balanced chocolate-brown patina on either side. As is to be expected, there are some scattered underlying contact marks, as well as some minor unevenness in strike. The originality and overall visual presentation of this coin, however, makes for an appealing example.

(Enlarged)

- 29 **1793 Wreath. S.9. Vine and Bars Edge.** Extremely Fine-40 or thereabouts with respect to wear. Evenly struck, deep chestnut-brown surfaces display uniform microgranularity on either side. This **rare** coin is otherwise free of any noteworthy detractors, and enjoys significantly better than average visual appeal for a coin of this important type. (*SEE COLOR PLATE*)

CONDITION CENSUS 1794 SHELDON 24 CENT

(Enlarged)

Lot No. 30

(Enlarged)

- 30 **1794 S.24 (R-5). Apple Cheek. Mint State-60.** Here is one of the finest known examples of a variety first colorfully named by Dr. Edward Maris for its full, boldly rounded cheek. An ear-shaped hollow in Liberty's hair is the result of enthusiastic die polishing at the infant Philadelphia Mint. The coin exhibits Walter Breen's Die State IV, showing a diagonal die crack from 'L' to hair, neck and bust to rim right of '4'. Gloriously smooth medium brown surfaces are of the highest quality, strike can only be called outstanding in every particular. Enjoying a highly distinguished pedigree, this coin is near the top of Breen's Condition Census, where it is very conservatively graded About Uncirculated-55; it also takes a high place in the CQR Condition Census. Its meticulously struck, boldly detailed obverse was plated in the original edition of Dr. William H. Sheldon's classic *Early American Cents*. (**SEE COLOR PLATE**)

- 31 **1794 S.30. Marred Field.** Good-6. Blue-brown obverse exhibits uniform porosity and some encrustation at the left side, while the golden-brown reverse is a trifle weak at the center and right side.

- 32 **1794 S.31. Marred Field.** The reverse exhibits a long fraction bar below the wreath bow. Detail of Very Fine-20. Chocolate-brown patina is accompanied by areas of rather mild porosity. A few very light bruises are evident at the rims.

Ex Globus/Mihalyi/Gallagher Sale (Stack's, September 1998, lot 229).

Lot No. 33

- 33 **1794 S.63. Head of '94.** Easily Extremely Fine-45 or better in terms of actual wear. The hair curls, wreath, and legends are all wonderfully sharp for a coin of this die variety. In fact, the detail of this example would place it among some of the top known specimens of this variety were it not for some evidence of skillful smoothing in the fields.

1795 CENT WITH PLANCHET CLIPS

- 34 **1795 S.76B. ONE CENT High, Plain Edge.** Fine-15 with two fascinating planchet clips at 10:00 and 1:00 adding to this nicely detailed coin's already bold appeal. It is instructive to observe that this medium brown Cent with tan devices enjoyed a normal circulation despite these dramatic, as-made clips.

PLEASING AND RARE 1796 SHELDON 86 CENT

Lot No. 35

- 35 **1796 S.86 (R-5). Low Date, Ghost Leaf.** Fine-12/Very Good-4. This deep brown coin's obverse is quite bold with substantial hair, eye and cap detail, strong LIBERTY and date. Reverse bears a full legend, wreath somewhat less clear and ONE CENT weak. The CQR Condition Census spans About Uncirculated-50 to Good-10, showing that this Cent with its problem-free circulation is worthy of close consideration.

CONDITION CENSUS 1798 S.187 CENT

Lot No. 36

- 36 **1798 S.187. Crack TY-Rim. Mint State-60.** This distinctive obverse shows two intersecting arc cracks at the right rim, one from 'TY', a second ending near bust point. There is a hint of obverse die clash, reverse cracks appear at top and bottom of 'CA', extending to right ribbon end and last '0' of the fraction. All these are diagnostic for Breen's Die State II. This handsome coin's smooth reddish-tan surfaces display subtle hints of gold for outstanding beauty. Another splendidly pedigreed specimen, it is the fifth listed in Walter Breen's Condition Census, based on an exceptionally conservative grade of About Uncirculated-55.

Ex Howard Rounds Newcomb, J.C. Morgenthau & Co. Sale 458, February 1945, lot 269; Milton A. Holmes (Stack's, October 1960, lot 1414; Louis Helfenstein (Lester Merkin, August 1964, lot 17; Herbert Rubin.

- 37 **1803 S.260. Small Date, Large Fraction.** Very Fine-30. Lightly cleaned, now retoned to a deep golden-brown hue. Well struck with full strands in the hair and venation in the leaves visible. A couple of old hairline scratches are visible at the obverse center.
- 38 **1804 S.266C.** Fine-12. Attractive, deep chestnut brown surfaces are quite evenly worn and smooth on both obverse and reverse. Both faces have seen some damage in the form of old scratches and tiny digs, mostly around the peripheries. Despite the obvious marks, this *key date* Large Cent is remarkably appealing. Housed in an ANACS slab marked "GENUINE, DAMAGED."

U. S. CLASSIC HEAD LARGE CENTS

NOTEWORTHY 1810/09 S.281 LARGE CENT

Lot No. 39

- 39 **1810/09 S.281.** A strong Extremely Fine-40 with claims to a higher grade. This entirely honest, problem-free, medium chestnut-brown specimen offers surprisingly smooth surface quality for a coin of this type. The strike, furthermore, is nicely balanced and likewise adds to the exceptional visual allure of this example. With the typical Classic Head Large Cent being plagued by a variety of defects and abnormalities, the coin offered here is certainly a refreshing change.

Lot No. 40

- 40 **1812 S.288. Large Date.** Detail of About Uncirculated-50 and still displaying some hints of muted underlying mint lustre beneath handsome medium brown toning. The surface quality is largely smooth with the exception of a small patch of obverse porosity inside the rim between 3:00 and 4:00. There are numerous scattered shallow ancient bruises along the rims, as well as a mark or two at Liberty's bust and jaw. With Classic Head Large Cents invariably being dark, rough, and unappealing, the overall condition of the present specimen really is quite exceptional.

U. S. CORONET LARGE CENTS

EXCEPTIONAL MINT STATE 1817 N.15 CENT

Lot No. 41

- 41 **1817 Newcomb 15 (High R-4). 1 Left of Bust. Mint State-60** in conservative terms, but actually approaching Choice. The date is spaced '1 8 17', showing the first '1' entirely left of bust point, the '8' below it. Die State B with a die crack linking the first three stars. Rich glossy brown is pleasingly reflective and the strike must be called extraordinarily sharp and full. This coin's high grade places it near the apex of the CQR Condition Census, fourth in the Noyes Condition Census, both of which peak at MS-60+. Here is a Matron Head piece that shows the design as it was supposed to look.

Ex Louis Helfenstein Collection (Lester Merkin, August 1964, lot 64).

Lot No. 42

Lot No. 45

- 42 **1820 N.13. Large Date. Mint State-65.** Satin-velvet surfaces enjoy rather evenly faded mint color on either side. The central strike is entirely full, and the peripheral definition is significantly bolder than the norm. Encapsulated MS65 RB in a first generation PCGS holder.
- 43 **1847 N.1. Mint State-64.** Abundant mint red is visible on this coin that is about 75% chocolate brown. Boldly struck, and with bold remnants of the diagnostic repunching at the date. Newcomb 1 is *very scarce* in Choice condition, as with the present example.
- 44 **1850 N.7. Mint State-64.** Hints of faded mint color are visible amid a blend of olive and rose-brown toning. The surfaces are wonderfully smooth and the central detail is razor-sharp.
- 45 **1855 N.4. Upright 5's. Mint State-63** or better. The obverse displays rich mint color that has begun to gently mellow. The reverse is essentially full mint red. This assertively struck, entirely satiny beauty is head and shoulders above the quality that is typically encountered for Mint State Large Cents of this issue.

GEM 1857 N.1 LARGE DATE CENT

Lot No. 46

- 46 **1857 N.1 (R-3). Large Date. Mint State-65.** Essentially full mint red, beautifully struck with the diagnostic point thrust up between denticles below the '8'. Even a casual viewing cannot miss the wealth of fine detail in Liberty's hair and in the leaves of the reverse wreath. Here is a CQR Condition Census example of the final date of U.S. Mint Large Cent coinage that would be a challenge to improve or even to equal on today's condition-focused market.

Ex Louis Helfenstein Collection (Lester Merkin, August 1964, lot 330).

- 47 **1857 N.2 (R-3). Small Date. Mint State-65.** Red-brown surfaces show a pleasing amount of vivid mint red, and testifying to an exacting strike is the fine curving line over the top serifs of 'TY' in LIBERTY. A splendid choice for either type or date collection to represent the last date of Large Cent coinage.

Ex Louis Helfenstein Collection (Lester Merkin, August 1964, lot 331).

- 56 **1864 Copper-nickel. Brilliant Proof,** on the edge of fully Choice. Glittering liquid-glass fields contrast with lightly frosted, meticulous devices. A reverse freckle or two hallmark this example of *only 370 Proofs struck* in this last year of "White Cent" coinage.
- 57 **1864 Bronze. Very Choice Brilliant Uncirculated.** Here is a glowing red-brown example of the first Bronze date without Longacre's initial 'L'. Substantial red makes this handsome coin a visual standout. NGC MS64RB.

- 58 **1864-L. Gem Brilliant Uncirculated.** Light chocolate brown boasts much warm underlying red lustre for delightful visual effect. Sharp and appealing with an especially crisply defined 'L' for Mint Engraver and designer Longacre. NGC MS65BN.
- 59 **1866 Snow 5. Repunched Date. Brilliant Uncirculated.** Rich, lustrous mahogany brown surfaces make this a very eye-appealing specimen of a *scarce* date variety. A small planchet defect is noted at 'U' of UNITED and corresponding area of the reverse.
- 60 **1867 Choice Brilliant Proof.** Medium red surfaces show evidence of toning to lightest brown. *One of 625 Proofs struck.*

Lot No. 61

- 61 **1869 Very Choice Brilliant Proof.** Vivid red shows the slightest toning on this near-Gem's obverse, the reverse is more deeply mirrored. *One of 600 Proofs struck.*
- 62 **1869/9 Choice Brilliant Uncirculated.** A mostly red example that is well struck and is devoid of any major detractors. The recutting is bold on the '9'.
- 63 **1869 Snow 1. Repunched Date. Brilliant Uncirculated,** with claims to Choice. Mostly red and brown lustrous remains on this well-struck, attractive specimen. Some very light, removable deposits are noted at 9:00 and 2:00 on the obverse. *Scarce.*

Lot No. 64

- 64 **1872 Choice Brilliant Uncirculated.** Pleasing light iridescent rose over mostly full red surfaces. A full strike is evident which is most unusual on this date. A very attractive example of this highly sought after date that should please even the most ardent collector.

Lot No. 65

- 65 **1877 Very Fine.** A full LIBERTY is visible on the Indian's headdress, making this an ideal middle circulated grade specimen of this *key date* for the collector. Rich, chestnut brown surfaces are quite attractive and glossy.

- 66 **1877** Another. Very Good. Balanced surfaces exhibit fully readable legends and intact rims. A smooth, medium brown example of this *key* Indian Head issue. PCGS VG8.
- 67 **1878 Choice Brilliant Proof**, with claims to Gem. Red-brown with a glowing undercurrent of ember-red.
- 68 **1881, 1904 Choice Brilliant Uncirculated**. Both are superbly struck and have vivid detail. The surfaces are lustrous, mostly red; **1907 Brilliant Uncirculated**. This boldly detailed coin is coupled with pale red surfaces. **3** pieces.
- 69 **1887, 1892** Choice About Uncirculated, spots on second; **1897** About Uncirculated, cleaned; **1898** About Uncirculated; **1907** About Uncirculated, cleaned; **1908** Choice About Uncirculated; **Lincoln. 1921'S', 1923'S'** whizzed; **1929'D,S', 1930'D,S'** Choice About Uncirculated, cleaned; **1936 Choice Brilliant Proof**. A colorful survey group. **13** pieces.
- 70 **1889, 1903, 1904, 1907, 1908 (2), 1909 Indian, 1909 V.D.B. Lincoln. Brilliant Uncirculated to Very Choice Brilliant Uncirculated**. Various shades of red-brown surfaces define this group. The 1889 has some residue on the reverse, the 1909 Indian is a bit streaky, and the 1909 V.D.B. is a gorgeous, colorful red specimen that most would call Gem. **8** pieces.
- 71 **1891 Choice Brilliant Proof**, approaching Gem in overall visual quality. Red-brown with substantial red.
- 72 **1891 Choice Brilliant Proof**, with claims to Gem. Another. Deeply prooflike fields are aglow in sunset-red color. Frosted devices lend this lovely specimen an amazing cameo effect. A few minor carbon flecks are noted for completeness.
- 73 **1891 Brilliant Proof** with claims to the Choice category. A third. Nice mirrored fields contrast nicely with the devices. Some spots are present over nearly full mint red color.

INTRIGUING INDIAN CENT HOARD

- 74 **Hoard of Uncirculated Indian Head Cents. 1892 (3), 1894 (13), 1895 (6), 1899 (4), 1900 (3), 1901 (15), 1902, 1903 (11), 1904 (17), 1905 (19), 1906 (4), 1908. Brilliant Uncirculated**. Here is an original hoard obviously dating to the early parts of the 20th century. This group was improperly stored, making some streaky, others iridescent, others bright red, and others just regular old brown and red-brown coins. A select few pieces, especially a few of the 1894's, exhibit light friction wear, the result of being stored together loosely. Perfect as a study group. **97** pieces. **SOLD AS IS. NO RETURNS.**

- 75 **1896 Choice Brilliant Proof**. Salmon-red surfaces are flashy in the fields and lightly cameo on the devices.
- 76 **1897, 1901, 1906 Choice, Very Choice, and Choice Brilliant Uncirculated**, respectively. Here is a trio of red coins that is just beginning to brown a bit. The first and third specimens exhibit some light spotting. **3** pieces.
- 77 **1901 Choice Brilliant Proof**. Attractive iridescent purple and rose-red toning over nicely preserved mirrored surfaces.
Ex Stack's December 1977 Sale, lot 300.
- 78 **1903 Gem Brilliant Uncirculated**. Sunset rose and deep orange-red surfaces define this gorgeous late date Indian Cent. Even though there is a tiny carbon spot at 9:00 on the obverse, we have elected to call this coin a Gem just on the basis of its tremendous eye appeal.
- 79 **1904 Choice Brilliant Proof**. Intense amber-red color remains on this early 20th century Proof. Here is a coin that would grade significantly higher if not for a few carbon spots at the center and lower left obverse.

SUPERB ORIGINAL 1906 CENT ROLL

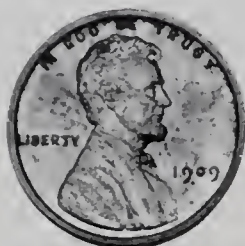

- 80 **1906 Very Choice to Gem Brilliant Uncirculated**. Here is an extraordinary, fully original roll of 1906 Indian Cents boasting full Red surfaces whose near-perfection suggests coins that have just dropped from the die. While original rolls do turn up even a century after issue, a roll offering such breath-taking uniform quality is virtually unheard of today. The appearance of this remarkable roll offers an historic opportunity for the collector seeking only the finest since years may pass before any comparable opportunity presents itself. **1** roll, **50** pieces.

- 81 **1908 (3). Choice Brilliant Uncirculated**. A pleasing trio of needle sharp coins. In addition, each has an attractive sunset red radiance. **3** pieces.

- 82 **1909 V.D.B. Very Choice Matte Proof**, bordering on a full Gem distinction. Satin-like fields are accompanied by razor-sharp devices, a broad reflective edge, and square, unusually wide rims. With the exception of the rather enigmatic proof Lincoln Cents of 1917, this **rare and important** issue is without question the most elusive of the matte proof Lincoln Cents. Lot No. 89

- 91 **1909'S'** Fine. Smooth and satisfying; **1914'D'** Good. Generally smooth surfaces display only trivial stains at the upper obverse; **1922 No D.** One of the less desirable and less valuable "weak reverse" varieties. Extremely Fine from a technical standpoint and exhibiting a rather "muddy" strike. The peripheries, including the last digit of the date are rather indistinct. 3 pieces.

Lot No. 101

- 101 **1922 Plain. Die Pair #2.** Another. Very Fine. A very pleasing example of this die pair #2 variety which has the weak obverse strike and the strong reverse strike.
- 102 **A small hoard of 1922'D' Cents.** The grades primarily range from Very Good to Very Fine. There is a nice mix of die states thereby giving a good indication of the state of affairs for this year regarding these Denver Mint Lincoln Cents. **39** pieces.
- 103 **1924'D' (16).** A dealer stock lot of this date, the grades of which primarily range from Fine to Very Fine with the majority being Very Fine. A few exhibit some marks or light staining. **16** pieces.

EVA ADAMS' BOONDOGGLE: 1969 GM ROLLER PRESS TRIAL CENT

Lot No. 108

- 108 **(1969) 1c. Judd unlisted, Coin World Comprehensive Catalog E.193. Bronze, PE. Choice Brilliant Uncirculated.** 47.5 grains. Draped female bust l. with nonsense inscriptions taking the place of mottoes and date of Lincoln Cent. Reverse bears a wreath and 5 line of random letters positioned as on the Wheat Cent reverse. This obverse bears the control letter-numbers I-L flanking the bust. These pieces were struck at the General Motors Tech Center in Warren, Michigan, on an experimental roller press outfitted with 144 obverse and reverse dies. The press was expected to churn out thousands of Cents each hour, but frequent die failure required shutting down the whole mechanism to find and replace dies. Down-time was excessive, but U.S. Mint Director Eva Adams continued to pour vast sums into the cumbersome machine until its failure could no longer be denied. Some pieces left the Tech Center with workers. They are legal to own as products of private industry bearing no official designs.

Ex Westchester Collection (Bowers & Merena Galleries, February 1987, lot 2265).

- 109 **1983 Doubled Die Reverse. Very Choice Brilliant Uncirculated.** Unspotted mint red surfaces display the slightest trace of mellowing. Quite scarce and highly collectible.
- 110 **Set of Lincoln Cents 1909-1971'P,D,S'** missing the 1909'S V.D.B., the 1914'D', 1922 Plain and the 1955 Doubled Die to be complete. The set grades Very Good to **Brilliant Uncirculated** with most of the latter dates grading as such. A nice set that should be closely inspected. **167** pieces. **SOLD AS IS. NO RETURNS.**

U. S. NICKELS

U. S. SHIELD NICKELS

Lot No. 133

- 133 **1866 Rays. Choice Brilliant Uncirculated** or better and displaying some characteristics indicative of this coin being a Proof. The edge is square and nicely mirrored. The definition, likewise, is very sharp for a business strike of this issue, and there is a hint of reflectivity in the fields. Despite these traits, we feel compelled not to call this coin a Proof, particularly since the dies do not match those known to be used to strike Proofs. Deep golden toning accents either side of this highly interesting specimen.

- 134 **1867 Rays. Choice Brilliant Uncirculated** with claims to a higher grade. The reverse is particularly sharp for this date and displays nearly full detail in the rays. The obverse exhibits typical minor loss of definition in the horizontal shield stripes, as well as in the leaves at right. Toned in shades of gold and russet over mint frost.

- 135 **1867 No Rays. Very Choice Brilliant Uncirculated.** A virtual Gem boasting bold lustre, typical die cracks on both sides.

Lot No. 136

- 136 **1868 Gem Brilliant Uncirculated** and an outstanding example. There is a blush of rich golden-brown toning over fully struck, velvet-smooth mint bloom. The reverse is absolutely superb.

- 137 **1869, 1883. Choice About Uncirculated and Brilliant Uncirculated** with claims to the Choice category respectively. Both enjoy plenty of mint frost beneath pale golden toning. **2 pieces.**

- 138 **1870 Very Choice Brilliant Proof.** Mirrored fields are highlighted by lilac-gold and iridescent toning. There are some ever so faint specks at the lower right obverse that hardly detract. With many Proof coins of this composition being dull and unattractive, the piece offered here is quite refreshing.

- 139 **1870 Choice Brilliant Uncirculated** and approaching the Gem category. Sharp, evenly balanced obverse surfaces are easily Very Choice. The reverse reveals a minor spot just inside the rim at 6:15. Satiny lustre creates pleasing visual appeal.

Lot No. 140

- 140 **1871 Choice Brilliant Proof** with claims to a Gem distinction. Chisel-sharp design features are toned in shades of pale lilac and russet-gold. The reverse is particularly vibrant. With Mint State examples of this date being few and far between, high quality Proofs such as the coin offered here are subject to increased collector demand.

Lot No. 141

- 141 **1872 Gem Brilliant Proof.** Glittering mirrored fields are very free of hairlines. A particularly attractive reverse offers champagne-golden iridescence. The top half of the obverse is fully brilliant, however the bottom half is toned a pale olive.

- 142 **1873 Closed 3. Choice Brilliant Proof** with claims to a Gem classification. Subtle lilac-gray toning accents this assertive specimen. The reverse exhibits some very minor hairlining.

Lot No. 143

- 143 **1874 Very Choice Brilliant Proof.** Wisps of russet augment sharp design features and reflective fields. This date enjoys a comparatively low Proof mintage (*estimated at 700+ pieces*) and significant scarcity of business strikes, the result of which is a noteworthy premium above common dates of this type.

GEM PROOF 1875 NICKEL

Lot No. 144

- 144 **1875 Gem Brilliant Proof.** A handsome blush of rose-golden toning accents vivid, nicely mirrored surfaces. As with the prior lot, the scarcity of high grade business strikes and the relatively low Proof output for this date has resulted in this issue warranting a significant premium over that of common dates of this design. The estimated Proof mintage for this issue is a mere 700+ pieces.

- 145 **1876 Brilliant Uncirculated,** nearly a Choice example. This frosty, delicately toned coin offers visual appeal that significantly surpasses the norm.

Lot No. 146

- 146 **1878 Gem Brilliant Proof** and a wonderfully wholesome example. Needle-sharp legends and design elements are highlighted by a compelling shade of overlying golden-russet toning. The fields likewise, offer their fair share of reflectivity. This very scarce "Proof-only" issue enjoys a rather paltry mintage of just 2,350 pieces.

Lot No. 147

- 147 **1879/8 Gem Brilliant Proof.** Here is an evenly balanced pale olive-golden example, the design features of which are razor-sharp. This very scarce purportedly "Proof-only" overdate constitutes just a portion of the 3,200 Proofs minted in 1879. A very scarce Shield Nickel issue in any condition as the total business strike production in this year adds only a paltry 25,900 pieces.

Lot No. 148

- 148 **1880** The variety with the second '8' in the date first cut too low and then corrected. **Gem Brilliant Proof.** Needle-sharp design elements and reflective fields are complemented by a pleasant blush of delicate olive-golden toning. Very scarce. A total of only 3,955 Proofs and 16,000 business strikes were coined of this date.

- 149 **1881 Gem Brilliant Proof.** Mirrored fields and assertive definition characterize this compelling example. The reverse displays just a trace of pale golden toning. This very scarce date enjoys a total mintage of only 3,575 Proofs and 68,800 business strikes.

- 150 **1882 Choice Brilliant Uncirculated.** Bold design elements and satiny mint lustre characterize this delicately toned example.

- 151 **1883 Gem Brilliant Proof.** High, squared rims encircle splendidly reflective silver fields and crisply defined reliefs to create exceptionally beauty for this desirable example of the last date of an increasingly popular type.

- 152 **1883 Gem Brilliant Uncirculated.** This very enticing example exhibits glowing silken mint bloom beneath a lovely blush of lavender-gold. An exceptional strike is equally as impressive. PCGS MS65.

U. S. LIBERTY HEAD NICKELS

- 153 **1883 No CENTS. Very Choice Brilliant Proof.** Gleaming full cartwheel brilliance, a tantalizing hint of rose at the centers join to provide this coin's exceptional visual quality and confirm its near-Gem status.

Ex George C. Slawson Collection (Stack's, April 1970, lot 190).

Lot No. 154

- 154 **1883 With CENTS. Gem Brilliant Proof.** Watery reflectivity augments a blend of pale lavender and rich golden toning. This first year Proof type coin is far nicer than the vast majority of those seen. Only 6,783 Proofs of this issue were minted.

- 155 **1883 With CENTS. Choice Brilliant Uncirculated; 1884 Brilliant Uncirculated.** Both are fully lustrous with a wisp of clear gold. 2 pieces.

EXCITING CHOICE PROOF 1885 NICKEL

Lot No. 156

- 156 **1885 Choice Brilliant Proof.** Flashing fields, lightly frosted reliefs create exceptional visual quality for this glittering Proof example of the rarest early Liberty date. Proofs of 1885 have long been subjected to relentless collector pressure, rooted in the scarcity of high grade business strikes, themselves eagerly sought in any and all grades.

Lot No. 157

- 157 **1886 Gem Brilliant Proof.** Mirror-reflective fields and frosty devices display a sheen of assertive orange-gold.

- 159 **1888 Very Choice Brilliant Proof.** Silvery reliefs stand out from fascinating goldenrod toning on the mirror fields.
- 160 **1889 Brilliant Proof.** The coin shows a full cartwheel, but is ever so slightly muted in its pitch of brilliance.

- 168 **1894 Choice About Uncirculated,** on the cusp of full Mint State, combining a bold strike with diffuse gold; **1895, 1906 Brilliant Uncirculated.** The second coin is near-Choice, both are lustrous and appealing. 3 pieces.
- 169 **1897, 1898, 1899 Choice About Uncirculated.** All coins exhibit red or rose-gold toning of great beauty. 3 pieces.
- 170 **1898 Choice Brilliant Proof,** with the eye appeal of a higher grade. Lovely rose, gold, and lilac hues imbue this watery, reflective specimen with abundant eye appeal. A couple of minor carbon spots keep this from a much higher grade.
- 171 **1900 (3). Choice Brilliant Uncirculated.** Each is sharply struck with attractive surfaces. Two are quite radiant while the third is somewhat subdued. 3 pieces.
- 172 **1900 (3). Choice Brilliant Uncirculated.** A second impressive trio. Well struck devices retain ample amounts of mint frost. 3 pieces.

- 175 **1902, 1908 Choice Brilliant Uncirculated.** Nicely matched in bold visual quality, the first coin is a pale rose-gold. 2 pieces.

Lot No. 176

- 176 **1903 Gem Brilliant Proof.** Marvelous glass-mirror fields give pleasing depth to this coin's light red-gold beauty.
- 177 **1904 Very Choice Brilliant Uncirculated.** A near-Gem showing a faint flavor of clearest gold.

- 179 **1907 Very Choice Brilliant Proof.** Another. Gleaming, reflective fields surround perfectly struck devices on this rose-gold toned specimen. Just a few minor carbon flecks on the cheek keep this gorgeous coin from a higher grade.
- 180 **1907 (3). Brilliant Uncirculated.** All three have splendid detail. One is heavily toned on both sides; the others have light obverse toning. **3 pieces.**
- 181 **1909 Choice Brilliant Proof** with claims to a higher classification. Tawny gold in the fields overlies cartwheel brilliance.
- 182 **1910, 1912 Choice Brilliant Uncirculated.** Deep golden toning over nicely preserved surfaces. Well struck and with nice lustre. **2 pieces.**
- 183 **1911 Brilliant Uncirculated** and virtually Choice; **1912 Choice Brilliant Uncirculated.** Both glittering coins show subtle peripheral toning. **2 pieces.**

- 262 **1795 LM-10 (R-3).** Another. Choice About Uncirculated. Largely silver with bold lustre and only an indistinct wisp of toning distinguish this handsome coin. The variety is distinguished by its bold obverse die cud extending from 'TY' to next star. The left obverse rim shows adjustment marks, and a glass reveals faint scratches on Liberty's neck, but this is without doubt a high quality and exciting example of the Flowing Hair coinage. PCGS AU55.
- 263 **1795 LM-10 (R-3).** A third. Choice Extremely Fine and still retaining a noticeable degree of muted mint frost in the most protected areas of the devices. The surfaces, though a bit too pale in color, are wonderfully free of defects for a coin of this troublesome denomination and design. In light of the current heavy demand for early type coins such as this, a strong bid is certainly warranted.

SIGNIFICANT 1796 LM-1 HALF DIME

Lot No. 264

- 264 **1796 LM-1 (R-3).** Choice Very Fine. Steel and bright red-gold iridescence impart major visual appeal. Logan-McCloskey observe "a scarce die marriage that is usually seen well worn." LOVELY 1800 LM-1 HALF DIME

Lot No. 265

- 265 **1800 LM-1.** Choice Very Fine, approaching Extremely Fine. The color, originality, and surface quality of this beauty easily set this lovely coin apart from typical circulated survivors. This evenly struck, defect-free, medium russet-gray specimen is essentially "perfect" for a coin in this condition! Any efforts to find a more honest, problem-free, and wholesome example of this date within the grade range offered here would, beyond any doubt, prove to be futile.

PLEASING LIBEKTY HALF DIME

Lot No. 266

- 266 **1800 LM-3 (R-4). LIBEKTY, Broken R.** Very Fine. A famous variety defined by a broken-top 'R' in LIBERTY, crude '8' made from two small 'o' punches. This 1859 obverse presents Anthony C. Paquet's re-worked Liberty and hollow stars, used for circulating coins in that year alone. The reverse is James B. Longacre's 1860 cereal wreath, first struck for circulation in 1860. This fascinating die marriage completely omits the name *UNITED STATES OF AMERICA*. Dr. J. Hewitt Judd listed it among Patterns, and as a "Transitional" design it has been eagerly pursued by collectors for more than 140 years. (SEE COLOR PLATE)

- 370 **1875'CC'** Choice Brilliant Uncirculated. Full silver frost covers both sides of this marvelous Carson City coin. Shield and LIBERTY are somewhat weakly impressed as often seen but this is a splendid coin for either a type or date collection. NGC MS63.

- 371 **1875'CC'** Another. **Brilliant Uncirculated**, with claims to Choice. Creamy white mint lustre defines this specimen of the only Carson City mint issue from this short-lived series. Here is a coin with the beautiful arm's length look of a Choice specimen that exhibits some minor rim ties on both obverse and reverse. The strike is very strong in most areas, with some weakness noted at the lower left obverse and upper central reverse.

- 372 **1875'S'** Choice Brilliant Uncirculated. Light champagne gold intensifies in the smooth fields, reverse shows a tantalizing hint of blue. PCGS MS63.

- 373 **1875'S'** Another. Choice About Uncirculated. Satiny surfaces exhibit a trace of golden toning. Well struck with a nice overall appearance.

- 374 **1875'S'** A third. Choice Extremely Fine. Shades of medium gray toning augment underlying traces of muted mint frost. This handsome "collector quality" coin offers a balanced strike and excellent surface quality.

SATISFYING 1796 BROWNING 1 QUARTER

(Enlarged)

Lot No. 375

(Enlarged)

- 375 **1796 Browning 1 (R-5). Uneven Date.** About Extremely Fine. This beautifully centered, lightly circulated coin exhibits steel gray and rose toning that imparts the most appealing visual qualities. Wear is absolutely minimal, and a glass reveals a few ancient toned-over obverse field marks, but the coin is otherwise free of serious distractions. This specimen fits neatly into the Hodder-Bowers Condition Census with its five Extremely Fine listings. (**SEE COLOR PLATE**)

HANDSOME 1806 BROWNING 2 QUARTER

Lot No. 376

- 376 **1806 B.2 (R-2).** Choice Extremely Fine. Missing left bases on '1', 'T' define this obverse variety. Pronounced vertical die cracks on either side of the eagle identify Die State IV on this reverse. Bold overall flash, very moderate wear contribute to this coin's undeniable appeal.

- 377 **1806 B.9a.** A die crack spans the obverse from the '1' in the date to the 'E' in LIBERTY. Choice Fine and an outstanding example for a coin within this grade range. Smooth lilac-gray surfaces provide a wonderfully wholesome presentation.

U. S. CAPPED BUST QUARTERS

- 378 **1822 B.1.** A strong Very Fine, approaching Extremely Fine. This evenly struck pale rose-golden example displays signs of a past light cleaning.

SPLENDID 1836 BROWNING 1 QUARTER

Lot No. 379

- 379 **1836 B.1. Choice Brilliant Uncirculated** and approaching a Gem classification. Underlying velvet lustre and a noteworthy strike are completed by varying shades of iridescent golden toning. This splendid coin exudes originality in every respect. Wonderfully fresh, entirely honest, and sure to please those that seek only unencumbered early type coinage.

U. S. LIBERTY SEATED QUARTERS

- 380 **1838** A strong Extremely Fine, approaching About Uncirculated. This very gently cleaned specimen still retains quite a bit of mint frost. There is a single horizontal hairline in the upper left obverse field, however this scarce and important first year type coin remains quite desirable.
- 381 **1842'O' Large Date.** About Uncirculated or a trifle finer. Lustre in protected areas emphasizes this coin's quality.
- 382 **1844** Choice About Uncirculated. Honest, original, and entirely defect-free. Evenly balanced fields and design features are awash in lovely olive-jade and iridescent golden toning. A handsome coin in every respect, and certain to please even the most finicky of collectors.
- 383 **1849'O' Very Good.** Here is an evenly worn example that offers full rims and a partial LIBERTY. The fields are quite smooth overall, there being only two or three ancient, inconspicuously placed minor marks that do not significantly detract. This **rare** date is certainly one of the most challenging No Motto Seated Liberty Quarters to acquire regardless of condition.
- 384 **1853 Arrows and Rays.** About Uncirculated and retaining plenty of muted mint frost beneath an enticing blend of lilac and subtle russet toning. This one-year type coin is scarce, wholesome, and quite appealing.
- 385 **1854 With Arrows. Brilliant Uncirculated.** Delicate gold mixed with gray for a nice appearance. A decent type coin.

- 386 **1854 With Arrows.** Another. **Brilliant Uncirculated.** Luxurious mint frost is accented by a gentle hint of delicate golden toning. Well struck on both the obverse and reverse, this example offers an enticing presentation.

VIRTUAL GEM 1859 QUARTER

Lot No. 387

- 387 **1859 Very Choice Brilliant Uncirculated.** Gleaming silver mint frost underlies understated rose and pearl toning, enhancing exceptionally sharp devices, stars and legend. PCGS MS64.

Lot No. 388

- 388 **1860'O' Very Choice Brilliant Uncirculated.** Satiny surfaces exude medium golden toning. The stars are a bit weakly struck but the Liberty and eagle are sharp. The fields show some light bagmarks but none present really serious problems. A very *scarce* coin in this grade which will repay close examination. PCGS MS64.
- 389 **1861 Brilliant Uncirculated,** or virtually so. Here is a coin boasting the lustre of a Choice Mint State coin but with a touch of friction at the very highest points of the design motifs. Pale rose-gold toning beautifies this specimen's lustrous surfaces.
- 390 **1864 Brilliant Proof.** Stark silver-white devices and fields contrast with tawny gold along the sharply defined rims. *One of 470 Proofs struck.*

1869 J.733 STANDARD SILVER 25 CENTS

Lot No. 391

- 391 **1869 25c. Judd 733 (R-5).** Silver, RE. **Brilliant Proof** or better. 77.3 grains. Liberty bust r. wearing a headband inscribed LIBERTY, wearing a single star on her brow. This reverse shows STANDARD SILVER over an oddly small wreath enclosing 25 CENTS, with a close, straight date 1869 appearing below. Wonderfully deep mirror silver offers a tantalizing hint of clearest gold.

GORGEOUSLY TONED 1872 QUARTER

Lot No. 392

- 392 **1872 Very Choice Brilliant Uncirculated.** Incredibly rich, glowing pink-gold, orange and iridescent blue drench both sides of this boldly reflective virtual Gem. NGC MS64.

- 393 **1873'S' With Arrows.** Choice About Uncirculated and on the cusp of full Mint State. Moderate gold toning covers a decent amount of hairlines. Fully struck.

- 394 **1884 Brilliant Proof.** Deep golden toning over sharply struck surfaces. Some light hairlines are present but this is overall a decent example of this low mintage date. There is a strong possibility that this is a prooflike business strike.

U. S. BARBER QUARTERS

- 395 **1892 Choice Brilliant Uncirculated** or finer. Silver-white with prooflike gleaming fields, frosted devices of extraordinary beauty. Only a hairline or two keep this outstanding example of the first date from a higher grade.

- 396 **1892** Another. **Choice Brilliant Uncirculated.** Delicate rose at centers contrasts with blue-gray toning circling the obverse rim, much of the reverse field.

- 397 **1892** A third. **Brilliant Uncirculated** and nearly of Choice quality. A bright and satiny coin that is well struck.

- 398 **1893'O' Very Choice Brilliant Uncirculated.** Satiny surfaces that exude nice golden toning. A few toning spots present.

- 399 **1893'O' Another. Brilliant Uncirculated.** A pleasing satin-silver New Orleans coin boasting very light peripheral gold.

- 400 **1893'S' Brilliant Uncirculated,** nearly Choice. Well struck with nice satiny surfaces. Some facial hairlines from a higher designation. *Scarce.*

- 401 **1896 Brilliant Uncirculated.** Medium gold and gray toning over boldly struck surfaces.

Lot No. 402

- 402 **1896'O' Brilliant Uncirculated.** The obverse has a frosty appearance with a few marks on the cheek. The reverse is satiny with nice mint bloom. A very *scarce* date in Mint State and well worth a closer inspection.

- 403 **1897 Brilliant Uncirculated.** A satiny example that is sharply struck and decent for the grade.

- 404 **1897'O' Brilliant Uncirculated.** Well struck with areas of iridescent toning. Some very light hairlines, otherwise this coin would reach a higher designation.

- 405 **1897'S' Choice About Uncirculated.** Some hairlines on the face and a scratch in the shield are this coin's main detractors. Full mint lustre with the reverse being fully Mint State in stature. A very *scarce* date that is still attractive and desirable in this grade.

- 406 **1898 Brilliant Uncirculated.** A frosty example that is mostly untuned and very nicely struck.

- 407 **1900'S' Brilliant Uncirculated.** Light golden and iridescent toning over nice surfaces. A decent strike enhances the eye appeal of this coin.

- 408 **1901 Brilliant Uncirculated.** A fully struck coin with opaque gray surfaces; **1901** Choice About Uncirculated. Minimal contact is restricted to the high points; **1899** Very Fine. An evenly worn coin that has steel blue surfaces. **3** pieces.

- 409 **1901 Brilliant Uncirculated.** Iridescent toning is coupled with vivid devices; **1901** Choice About Uncirculated. A virtually Mint State specimen; **1904** Fine. LIBERTY is completely visible. **3** pieces.

Lot No. 410

- 410 **1901'O' Choice Brilliant Uncirculated.** Medium gold and russet toning over surfaces that are well preserved. Well struck with a tiny scratch on the cheek. Quite *scarce*, especially so in this lofty condition.

Lot No. 422

- 422 **1914'S' Choice Brilliant Uncirculated** and very close to the Gem category. Beautiful cartwheel lustre with a pleasing array of rose-gold, light blue and russet toning. A few minor marks, otherwise this coin has the appeal of a Gem. Very *scarce* in this condition with *only 264,000 pieces struck for general circulation.*

- 423 **1915'S' Choice Brilliant Uncirculated.** Russet and gold toning at the rim with the centers nice and satiny. A tiny nick on the cheek.

- 434 **1917 Type II. A third. Brilliant Uncirculated.** $\frac{1}{2}$ head and a nearly full shield. Here is a velvet-like, pale lilac specimen that is essentially Choice if not for some ever so faint pin scratches at the right obverse.

- 435 **1917'S' Type II. Choice Brilliant Uncirculated** and approaching a Gem classification. The shield is nearly full, however the head is essentially flat. Toned in shades of champagne-rose and gold over velvet-like mint lustre. PCGS MS64.

U. S. HALF DOLLARS

U. S. FLOWING HAIR HALF DOLLARS

IMPORTANT 1794 HALF DOLLAR

(Enlarged)

Lot No. 482

(Enlarged)

- 482 **1794 Overton 104 (R-5).** A later die state with a small reverse cud developing above the 'ER' in AMERICA. Fine overall: the obverse being About Fine with some minor weakness at the lower periphery, the reverse is that of a Choice Fine. Rich lavender-russet toning is accented by subtle golden highlights. Two or three trivial edge bumps are the only detractors worthy of mention on this totally honest specimen. This **rare** first year of type and denomination is of great importance within the U.S. series. (**SEE COLOR PLATE**)

- 483 **1795 O.116 (R-5).** About Very Fine. Some minor striking weakness is apparent along the obverse rim from 10:30 to 12:30 as well as at the corresponding area of the reverse. The obverse has sustained a few old central pin scratches, one of which is particularly noticeable. Toned a pale to medium gray with russet highlights. A **rare** die variety that is very seldom seen in the upper grades.

U. S. DRAPED BUST HALF DOLLARS

DESIRABLE 1802 HALF DOLLAR

Lot No. 484

- 484 **1802 O.101 (R-3). Large High Date.** Extremely Fine. Sole variety of this elusive date, *one of 29,890 struck*. Deep steel gray and tawny gold toning covers both sides of this sharply struck example. A glass finds reverse adjustment marks above the eagle.

HANDSOME 1803 OVERTON 103 HALF DOLLAR

Lot No. 485

- 485 **1803 O.103. Large 3.** Choice Extremely Fine. A very pleasing blend of lavender and medium gray toning is accompanied by mint frost in the protected areas of the fields. Evenly struck design features offer plenty of detail in the hair curls, shield, scroll, and feathers. This **scarce date** is very seldom available at or above the quality level offered here. NGC XF45.
- 486 **1803 O.103. Large 3.** Another. Choice Very Fine. This evenly worn, pale lilac-gray example enjoys a bold central strike. A very minor reverse rim bruise at 8:00 is the only detractor that warrants special mention. *Scarce.*
- 487 **1805 O.112.** Choice Very Fine. Medium gray toning with some light gold toning in the hidden areas. A couple of pin scratches on the obverse.

NOTEWORTHY 1806/5 OVERTON 103 HALF DOLLAR

Lot No. 488

- 488 **1806/5 O.103.** Choice Extremely Fine and exhibiting areas of mint frost still adhering in the devices. The peripheries are accented by pale jade-golden iridescence, and the strike is generally rather even. There is, however, some loss of definition in the right reverse clouds and at the juncture of the right wing with the shield. With the condition census in Overton ranging from AU55 to EF40, the coin offered here is certainly far superior to the typically encountered survivor of this overdate variety. NGC XF45.

- 489 **1806 O.105a.** Choice Very Fine. Light gray toning over nice surfaces. The reverse exhibits some scratches at the bottom coming out from the arrow shafts.

HIGH GRADE 1806 POINTED 6 HALF DOLLAR

Lot No. 490

- 490 **1806 O.109. Pointed 6, No Stem through Claw.** About Uncirculated and nearly in the Choice category. Deep steely gray is colorfully edged in gleaming gold and orange for dramatic visual effect. Here is an ideal specimen in a high circulated grade for inclusion in any upper end type set. NGC AU53.

APPEALING 1806 OVERTON 115 HALF DOLLAR

Lot No. 491

- 491 **1806 O.115. Pointed 6, Stem through Claw.** Choice About Uncirculated. Here is a very well balanced example that offers plenty of definition in the hair curls, shield, scroll, and wingfeathers. Russet-jade peripheral obverse iridescence encircles a pale rose-gold center. The reverse displays a lighter shade of gray toning over a considerable degree of mint frost. A very popular, highly elusive issue in this state of preservation. NGC AU55.
- 492 **1806 O.116.** Very Fine and displaying signs of a past cleaning. The coin has since acquired some light russet toning, most evident at the peripheries. The central obverse strike, as well as the reverse strike at the eagle's left wing is not full.
- 493 **1806 O.119. Pointed 6, Stem through Claw.** About Uncirculated and assertively struck in every respect, there being no areas that exhibit significant weakness of definition. Underlying mint frost is embellished by a blush of pale golden toning on either side. Closer scrutiny reveals some trivial slide marks at the central obverse, however the quality is truly impressive for a coin of this die variety. PCGS AU50.

LUSTROUS 1807 OVERTON 110 HALF DOLLAR

Lot No. 494

- 622 **1921'S' Gem Brilliant Uncirculated.** Vivid silver-white fields and well-detailed reliefs combine to give this rarest of Walking Liberty Half Dollars its astonishing quality and virtually unexcelled appeal. Although U.S. Mint records show 548,000 struck at San Francisco, high grade examples are measurably scarcer than the lower mintage Philadelphia or Denver coins of this eventful post-war depression date. It seems certain that this gleaming silver coin will become the treasured centerpiece of some major collection. Finding another of comparable quality would indeed be a challenge. (SEE COLOR PLATE)

- 623 **1929'D' Choice Brilliant Uncirculated.** Satiny lustre covers the remarkably mark-free fields on both sides. Centers show typically weakly struck details, light gold toning further enhances this specimen.
- 624 **1929'D' About Uncirculated** and offering considerable mint frost beneath a handsome shade of pale to medium russet-golden toning. *Scarce* in this condition; **1945'D' Choice Brilliant Uncirculated.** Evenly struck and entirely satiny. 2 pieces.
- 625 **Middle Date Walking Liberty Half Dollars.** About Uncirculated to **Brilliant Uncirculated.** Includes 1934, 1935, 1936, 1937, 1938, 1939, 1939'D', 1940, 1940'S'. Pleasing examples displaying ample and appealing lustre. 9 pieces.
- 626 **1934, 1939, 1940'S'.** All are **Very Choice Brilliant Uncirculated.** The first two are sharply struck and display pale golden toning. The last exhibits jade obverse peripheral iridescence and is easily Gem were it not for a rather flat central strike. 3 pieces.
- 627 **1934'D' Very Choice Brilliant Uncirculated.** Silky-smooth mint lustre is bathed in icy champagne gold toning.
- 628 **1934'D', 1935'D', 1936'S', 1937'S'** About Uncirculated or finer. Solid examples of these dates, mints and grades offering visual satisfaction. 4 pieces.

Lot No. 629

- 629 **1934'S' Gem Brilliant Uncirculated.** Shades of delicate russet toning on either side. A chisel-sharp, highly compelling example. The fields and design features are quite smooth; the only significant defect being a small central obverse contact mark at Liberty's thigh. This date is legitimately **rare** in full Gem condition.

- 630 **1934'S' Another. Brilliant Uncirculated,** virtually Choice. Blazing silver lustre defines the surfaces of this coin that is ringed in an iridescent blue and russet toning at the peripheries.

- 636 **1936 Gem Brilliant Uncirculated.** Here is a fully struck, virtually flawless beauty that is completed by areas of multicolored pastel peripheral iridescence.

- 637 **1936'P,D,S' Choice Brilliant Uncirculated.** Here is an icy, fully lustrous trio of 1936 dated coins featuring sparkling silver surfaces and a touch of cloudy toning on the reverses of the 'D' and 'S' mint coins. **3 pieces.**
- 638 **1936'D' Gem Brilliant Uncirculated.** Wonderfully rich, unbroken satiny mint bloom is featured on this handsome example.
- 639 **1936'D', 1937'D' Choice Brilliant Uncirculated.** The first shows an arc of obverse russet, the second is stark silver. **2 pieces.**

- 646 **1937'D' Another. Choice Brilliant Uncirculated.** Pale rose-gold toning bathes this coin's frosty, fully lustrous surfaces.

Lot No. 647

- 647 **1937'S' Gem Brilliant Uncirculated** and an exemplary specimen. Fully struck surfaces are unencumbered by all but the most trivial of microscopic imperfections. Shades of lavender-mauve toning highlight glorious silk-like mint bloom.
- 648 **1938 Gem Brilliant Proof.** A lovely two-tone cameo that has excellent fields with virtually no detractors. Attractive eye appeal.

- 649 **1938 Very Choice Brilliant Proof.** Another. Delightful cameo effect over mainly untuned surfaces. A very attractive example of this Proof type coin.
- 650 **1938 Brilliant Proof,** or virtually so. A third. Chrome-like fields exhibit a touch of friction, indicating that this piece might have spent a very short life in circulation!

Lot No. 651

- 651 **1938'D' Choice Brilliant Uncirculated.** Dense satiny lustre accents either side. There are a pair of tiny obverse reeding marks at Liberty's breast, otherwise this "key" late date Walking Liberty issue approaches a Very Choice designation.
- 652 **1938'D' Another. Choice Brilliant Uncirculated.** Relatively bold strike complements full frosty lustre.
- 653 **1938'D' A third. Choice Brilliant Uncirculated.** Full lustre and a remarkably precise strike make this a highly desirable example of a decidedly scarce later Denver date.
- 654 **1939'P,D,S' Very Choice Brilliant Uncirculated,** on the cusp of full Gem grades. The Philly mint coin is essentially Gem, while the 'D' and 'S' mint coins are just a bagmark or two from that lofty grade. Icy mint lustre characterizes the 'P' and 'D' specimens, while the 'S' mint piece exhibits creamy silver lustre. **3 pieces.**
- 655 **1939'D', 1939'S'.** Both are **Very Choice Brilliant Uncirculated** and display hints of delicate russet-golden toning. This well matched pair offers similar lustre, strike, and coloration. **2 pieces.**
- 656 **1940 Gem Brilliant Proof.** A lightly toned example that is free from the bothersome hairlines normally seen on these type coins.
- 657 **1940'P,S' Gem and Very Choice Brilliant Uncirculated,** respectively. Well struck and flawless, the Gem 'P' mint is a blast silver-white coin with touches of peripheral gold. The 'S' mint coin is similarly flawless and exhibits the usual weakness of strike at the centers. **2 pieces.**
- 658 **1941 Very Choice Brilliant Proof.** Pale gold toning over mostly hairline-free surfaces. An attractive example for the Proof connoisseur.
- 659 **1941 Choice Brilliant Proof.** Another. Deep mirror brilliance shows a trace of cloudy toning.

- 666 **1944'P,D,S' Very Choice Brilliant Uncirculated,** or finer. Here is fully lustrous three mint trio that exhibits frosty white surfaces and only a touch of toning. The 1944'S' would be a Gem but for the characteristic weakness of central strike of this date. **3 pieces.**
- 667 **1944 (6). Very Choice Brilliant Uncirculated.** A stunning group. Every coin retains superb mint lustre enhancing bold central devices. **6 pieces.**
- 668 **1944 (6). Very Choice Brilliant Uncirculated.** A second splendid group. All coins have blast white surfaces over impressive devices. **6 pieces.**

U. S. SILVER DOLLARS

U. S. FLOWING HAIR SILVER DOLLARS

- 811 **1795 Bolender 1. Two Leaves under Wing.** Choice Very Good. Pleasing, light gray tones dominate, while the obverse is worn to a slightly lighter hue than the darker reverse. Wear is even and balanced, lending this cartwheel a good deal of eye appeal. A glass reveals some very faint hairlines over ancient, toned down shallow scratches in the left obverse field as well as a toned over scratch at upper left reverse. Here is overall a very pleasing example of this popular U.S. Silver Dollar type.

1795 TWO LEAVES SILVER DOLLAR

Lot No. 812

- 812 **1795 B.2 (R-3). Two Leaves under Wing.** Fine. A short raised bar in the obverse field at star 4 identifies this important variety, as does the reverse wreath displaying 9 berries left and 10 right. Smooth silver surfaces and decently detailed reliefs combine to create this coin's very real visual quality. A splendid coin for either a date or type collection.

U. S. DRAPED BUST, SMALL EAGLE REVERSE SILVER DOLLARS

PLEASING 1795 DRAPED BUST DOLLAR

Lot No. 813

- 813 **1795 B.14 (R-3). Off-Center Bust.** Choice Very Fine. Satisfying pearl-gray toning is shot with tawny gold for added fascination. A bold strike assured a wealth of detail even after this coin's trouble-free circulating life. NGC VF35.

- 814 **1795 B.14 (R-3). Off-Center Bust.** Another. Very Good. Here is a smooth and evenly worn specimen of this important type featuring glossy silver-gray devices and deeper golden gray and deeper smokey gray tones in the obverse fields, while the reverse is a pleasing, uniform lavender-gray tone. A small edge bruise is noted above 'I' of LIBERTY, where the viewer will also find some minor adjustment marks.

IMPORTANT 1795 SILVER DOLLAR

Lot No. 815

- 815 **1795 B.15. Centered Bust (R-2).** Choice Very Good. Here is a splendid silver-gray survivor of this important U. S. type coin. A touch of light orange-gold toning adheres to the fields of this very eye appealing specimen.

LOVELY 1796 SILVER DOLLAR

Lot No. 816

- 816 **1796 B.4a. Small Date, Large Letters.** About Uncirculated. Plentiful mint lustre over nicely preserved surfaces. A decent strike further adds to this coin's lovely appeal. Some light adjustment marks at the upper right reverse rim. Lightly hairlined but not to its complete detriment. All in all a wonderful early date Silver Dollar that is sure to please the most ardent collector. (SEE COLOR PLATE)

Lot No. 817

- 817 **1798 B.23 (R-3).** Very Fine. Light medium gray toning with some iridescent blue near the date. Some mint-made adjustment marks on the central obverse and a thin hairline on the shield. A nice example.

SUPERBLY STRUCK 1798 SILVER DOLLAR

Lot No. 818

- 818 **1798 B.27.** Choice About Uncirculated and virtually of Mint State quality. A bright coin with some light golden toning. Well struck with even the most intricate of the hair design in full prominence. A tiny nick on the reverse does little to detract from this lovely piece. A mint-made softness of the denticles between stars 6 and 7 is quite unusual. Some light hairlines from a long ago cleaning hardly matter considering the strong visual impact that this coin possesses. (*SEE COLOR PLATE*)

U. S. DRAPED BUST, HERALDIC EAGLE REVERSE SILVER DOLLARS

- 819 **1799/8 B.3. 15 Star Reverse.** Fine. Well struck and exhibiting boldly detailed devices, this popular *Red Book* type coin displays light silver gray surfaces with touches of gold in and around the legends. The area bounded by stars five through seven, 'LIB', the ribbon ends and the top of Miss Liberty's hair has been smoothed, probably in an attempt to remove graffiti.

- 820 **1799 B.9.** Very Good. Deep gray-gold intensifies at the peripheries, devices are generally silvery. A glass reveals minor edge bruises and one notable bump over LIBERTY.

Lot No. 821

- 821 **1799 B.10.** Choice Fine. Normal circulation presents no special problems. Pale salmon toning verges on lilac-gold, retoning after a gentle cleaning long ago. Die State IV shows bold reverse die cracks, three meeting and crossing at OF. A glass finds some ancient cracks above the eagle.

- 822 **1800 B.12 (R-3).** Extremely Fine from the standpoint of actual wear. Surfaces are now a relatively attractive graphite gray and gold hue and the central devices and legends are quite well-defined. Close examination under magnification reveals tooling of the designs and in the fields, in addition to a whizzing to even out the tooling marks. This coin is an NCS holder marked "XF DETAILS. TOOLED, WHIZZED."

- 823 **1800 B.14. Dotted Date.** Fine. Devices are highlighted in a light golden-gray, while in the surrounding fields a darker lavender-gray tone dominates. Surfaces are generally mark-free, but for a tiny gouge in the middle of the left obverse field.

This variety gets its name for the tiny die lumps around the first 'O' in the date, the result of die degradation at that location.

- 824 **1800 B.16.** Very Fine. Light off-gray surfaces that retain hairlines from a past cleaning. Typical strike with weakness on the Bust tip and the right side clouds on the reverse.

Lot No. 825

- 825 **1801 B.2.** Choice Very Fine and on the cusp of Extremely Fine. Pale gray toning over decently preserved surfaces. A presentable strike gives witness to the care that was used in minting this coin. The early state of the die with no clash marks visible and quite *scarce* as such.

- 826 **1803 B.4.** Extremely Fine in terms of wear but heavily tooled behind the head giving the coin a bi-level effect at that area. Bright and mainly untuned with some lustre in the protected areas. Well struck.

U. S. LIBERTY SEATED DOLLARS

827 **1843** About Uncirculated. Silvery bright surfaces exhibit abundant lustre in the protected areas of the fields and devices. Although most probably brightened in the past, this early date is still quite attractive. A shallow scuff and a cut in the right obverse field are noted for accuracy.

828 **1845** About Uncirculated in overall detail, deeply toned in tan-gold and gray. Somewhat granular surfaces show signs of very skillful restoration.

829 **1847** About Uncirculated and essentially Mint State from the standpoint of wear, this coin's surfaces have been cleaned to a lightly glossy sheen. Design motifs and lettering are otherwise quite sharp, with some hints of lustre preserved in the protected areas of the legends and outer devices.

EXCITING MINT STATE 1857 SILVER DOLLAR

Lot No. 830

830 **1857 Brilliant Uncirculated** and virtually in the Choice category. Extraordinary silver lustre displays faintly golden highlights, some minute die rust dots can be found near the rims. The sharpness of this gleaming coin's strike can be gauged by the hair-thin raised die line through the date. A scattering of generally trivial bagmarks is noted for accuracy. (SEE COLOR PLATE)

831 **1859'O' Brilliant Uncirculated** with claims to Choice. Lovely full lustre gives vitality to an exceptionally bold strike. Some small bag ticks can be found, reminiscent of Silver Dollars long held in storage in Treasury vaults, released in the 1960's to the joy of collectors.

832 **1859'O' Another.** Choice About Uncirculated, nearly Mint State in terms of wear. Lustrous fields surround very well struck devices for an impressive arm's length appearance. Close examination under a glass reveals some light hairlines on both obverse and reverse.

A PAIR OF CHOICE PROOF 1860 SILVER DOLLARS

Lot No. 833

833 **1860 Very Choice Brilliant Proof.** Deeply reflective fields show understated iridescent gold and blue. Boldly struck but for the hair detail in Miss Liberty's head. Of the 1,330 pieces struck in Proof, of which all but 527 were melted down, very few surviving today can match the excellent condition and resultant appeal of this example. PCGS PR64. (SEE COLOR PLATE)

Lot No. 834

834 **1860 Choice Brilliant Proof.** Another. Steel toning underlies a wealth of clear glowing rose, giving this handsome coin its exceptional visual impact. Here is a Proof Dollar that would be difficult to equal for quality and rarity. PCGS PR63. (SEE COLOR PLATE)

835 **1860'O' Brilliant Uncirculated.** This boldly struck, fully satiny specimen exhibits claims to the Choice category were it not for some evidence of filing at the upper left obverse rim.

836 **1860'O' Another.** About Uncirculated. Central devices are well defined, while the surrounding fields are quite lustrous despite some light circulation wear. Surfaces are generally bright and silvery, with some areas of darker toning in the legends and reverse shield.

837 **1866 With Motto. Very Choice Brilliant Proof.** Smooth silver contrasts with iridescent gray and tawny rose-gold on either side of this virtual Gem. The strike is exceedingly bold, the immaculate surfaces are subtly reflective, making this a highly pleasing example of an increasingly popular series.

838 **1870** Extremely Fine. Deeply toned in lilac, orange-gold and lavender-gray, this specimen would make a pleasing addition to a circulated Type Set.

839 **1871 Choice Brilliant Uncirculated.** Frosty silver-white drenches fields and wonderfully full devices, stars and legend. Here is the ideal Liberty Seated coin for any carefully chosen type or date collection.

840 **1871** A second. Extremely Fine. Hints of lustre lie hidden in the protected areas of the designs, while the surfaces of this bright silver coin are a bit scuffed.

841 **1872 Breen 5491. "Blundered Obverse."** Strong About Uncirculated, verging on Mint State in terms of wear. Although nearly Uncirculated in terms of wear, this coin's surfaces have been noticeably cleaned. Designs are well defined, while a thin hairline scratch starts at the date and goes to the Liberty cap.

When the die preparer was punching the date logotype into the die, he missed the proper position at least twice, landing the date instead into the rock on which Miss Liberty sits. This "Blundered Obverse" manifests itself as the bottoms of errant digits visible at the base of this rock!

842 **1873** Extremely Fine. Light silver-gray surfaces exhibit soft mint lustre in the protected areas of the devices and legends.

U. S. TRADE DOLLARS

EXCITING CAMEO PROOF 1876 TRADE DOLLAR

Lot No. 843

843 **1876 Type I/II. Brilliant Proof** with solid claims to Choice. Here is a lovely Cameo Proof boasting delicately frosted reliefs contrasting boldly with deepest mirror fields. NGC PF62 CAMEO.

844 **1876'S' Brilliant Uncirculated** with solid claims to the Choice category. Full cartwheel silver lustre contrasts with splashes of colorful russet and gold at the sharply defined rims.

845 **1876'S' Another. Brilliant Uncirculated**, or virtually so. Flashy mint lustre lies hidden beneath a rich veneer of lavender-gold and sunset orange and rose toning. Well struck, but perhaps exhibiting a touch of wear that is well hidden by the toning. Type I Obverse and Reverse.

NEAR-GEM 1877 TRADE DOLLAR

Lot No. 846

846 **1877 Very Choice Brilliant Uncirculated**, on the threshold of Gem status. A wisp of gold highlights the lovely quality of the prooflike fields, reliefs are generally well struck and boldly detailed, though Liberty's locks are typically weak as so often seen.

847 **1877** Another. About Uncirculated. Deeply toned in battleship gray, this coin exhibits lightly glowing golden lustre in the protected areas of the devices. Well struck.

Although not strong enough to be collected as a variety, this specimen exhibits die doubling on both obverse and reverse, the reverse doubling being more perceptible at lower magnification.

DAZZLING PROOF 1880 TRADE DOLLAR

Lot No. 848

848 **1880 Choice Brilliant Proof** with claims to a full Gem distinction. Dazzling liquid-mirror fields highlight this entirely vibrant, razor-sharp cameo example. There is a trivial lint mark in the upper right obverse field, otherwise the visual allure of this specimen is exceptional. This very scarce "Proof only" date enjoys a total mintage of only 1,987 pieces. Conservatively graded PCGS PR63CAM.

U. S. MORGAN SILVER DOLLARS

- 849 **1878 8 Tailfeathers. VAM 23. Brilliant Uncirculated**, virtually Choice. Watery, prooflike fields verge on full DMPL status on this specimen featuring frosted devices. Here is a lovely example of this *Top 100* VAM variety boasting an R-7 rarity rating.
- 850 **1878 8 Tailfeathers. Brilliant Uncirculated**. Creamy white, with some golden toning; **1878 7 Tailfeathers. Reverse of '78. Brilliant Uncirculated**, virtually Choice. Rich white lustre with peripheral yellow-gold; **1878 Strong 7/8 Tailfeathers. Brilliant Uncirculated**, with claims to Choice. Silken white lustre creates this lightly bagmarked coin's eye appeal. 3 pieces.
- 851 **1878 8 Tailfeathers, 1881'S', 1885'O', 1889, 1902'O' Brilliant Uncirculated** or finer. Silver lustre drenches most, the second from the last is bright gold. 5 pieces.
- 852 **1878 Weak 7/8 Tailfeathers. Choice Brilliant Uncirculated**, with the eye appeal of Gem. Here is a coin that is destined for the toning specialist. Obverse centers are gold and lilac, radiating out to blue and olive gold toward the peripheries. The reverse is aglow with rose, amber and yellow-gold. Simply splendid!
- 853 **1878'CC' Choice Brilliant Uncirculated**. Subtle peach gold tones ring the peripheries of this fully lustrous, well-struck Carson City Dollar.
- 854 **1878'CC' Another. Choice Brilliant Uncirculated**. Frosty white lustre is joined by a touch of gold at the very peripheries.
- 855 **1878'CC' A third. Brilliant Uncirculated**, virtually Choice. Here is a coin with an outstanding, pastel toned and prooflike reverse that is nearly Gem. The obverse is frosty white with some facial bagmarking.

- 857 **1878'S', 1879, 1887, 1888, 1889 Brilliant Uncirculated**. Another boldly struck, silvery white group; **1884 Choice About Uncirculated**. Perhaps lightly cleaned some time ago. 6 pieces.
- 858 **1878'S', 1880'S', 1881'S', 1885, 1888'O', 1890, 1899'O' Choice to Very Choice Brilliant Uncirculated**. A fascinating selection of bright silver examples of these dates. 7 pieces.

PROOFLIKE 1879'CC' MORGAN DOLLAR

Lot No. 859

- 859 **1879'CC' Normal 'CC'. Brilliant Uncirculated**. Devices are fully frosted and are surrounded by deeply mirrored fields for a lovely cameo effect. High grade survivors of this second year of Carson City mint issue are quite scarce, and prooflike specimens are scarcer still. Some evenly distributed, light bags ties on the obverse keep this from the coveted Choice designation.

MINT STATE 1879'CC' MORGAN DOLLAR

Lot No. 860

- 860 **1879'CC' Capped 'CC'. Brilliant Uncirculated**. Milky white mint lustre defines this second year of Carson City Morgan Dollar issue. As usual, the obverse exhibits more bagmarks than the relatively blemish-free reverse. A small rim bruise is noted at 5:00 on the reverse. The odd nickname for this variety arises from the die rust that affects the area around the mintmark.
- 861 **1879'CC' Capped 'CC'. Another. Choice Extremely Fine**. Here is a trouble-free specimen of this issue featuring battleship gray toning and light pastel gold lustre in the protected areas of the legends and devices.
- 862 **1879'O' GSA Holder**. About Uncirculated. Here is one of about 100,000 circulated Morgan and Peace Dollars specially packaged by the GSA in mylar holders and blue envelopes reminiscent of the "Blue Ikes."
- 863 **1879'S' Reverse of '79. Gem Brilliant Uncirculated**. A pristine specimen with both obverse and reverse displaying needle sharp devices. Light golden toning at the borders surrounds watery fields creating a cameo effect.

- 864 **1879'S', 1880'S', 1885, 1898'O' Choice Brilliant Uncirculated.** An attractive quartet of vividly detailed Morgans; **1891, 1901'O' Brilliant Uncirculated.** Both are nearly Choice. 6 pieces.
- 865 **1879'S', 1880'S', 1885 Choice Brilliant Uncirculated.** The first two display typical reflectivity while the third is quite lustrous; **1891, 1898'O', 1901'O' Brilliant Uncirculated.** A decent silvery white trio. 6 pieces.

- 915 **1890'CC'** A third. **Brilliant Uncirculated**, or finer. Silver lustre cartwheels from relatively mark-free fields on this mostly white specimen. Some marks at Miss Liberty's cheek keep this coin from a higher grade.

- 916 **1890'CC'** GSA Holder. **Brilliant Uncirculated**, virtually Choice. Here is a blazing white specimen of this issue boasting fierce mint frost and far fewer marks than usually encountered on specimens of this date in GSA Holders. *A mere 3,949 examples of this date were in the GSA holdings* and represent a tiny fraction of its nearly 3,000,000 Carson City Morgan Dollars.

- 917 **1891** Very Choice Brilliant Uncirculated. Creamy white, nearly flawless surfaces define this boldly lustrous specimen. Although quite common in the lower Mint State grades, near-Gems like this one are very difficult to find.

Boldly struck with only trifling softness above Miss Liberty's ear, this specimen exhibits very few and very minor surface marks and retains a pleasing overall appearance. Mint State survivors of this date are few and far between, a fact confirmed by NGC and PCGS Population Reports, which have graded a combined population of just over 100 Mint State pieces, a number of which are undoubtedly the result of multiple submissions. Of these, only 8 pieces were given the prooflike designations of "PL" or "DM," meaning that the current prooflike specimen is a member of a rarefied subset of Mint State 1892'S' Dollars. The ardent collector should not take lightly this opportunity to obtain such a high grade and beautiful specimen of this classic Morgan Dollar rarity. (*SEE COLOR PLATE*)

HIGH GRADE 1893 MORGAN DOLLAR

- 932 **1893 A fourth. Choice About Uncirculated.** Attractive lavender-gray toning and light circulation wear has not totally diminished this coin's prooflike flash.

WELL STRUCK 1893'CC' MORGAN DOLLAR

Lot No. 933

- 933 **1893'CC' Brilliant Uncirculated** and virtually indistinguishable from fully Choice. Assertive full cartwheel lustre in the fields highlights the frosty devices. - 936 **1893'S' About Uncirculated** and boasting an abundance of mint lustre for the grade. Subtle russet-gold toning infiltrates the protected areas of the legends and devices on this classic Morgan Dollar rarity. Abundant and flashy mint lustre remains despite light, well-distributed friction in the fields and at the high points of the design motifs. With most specimens encountered grading VF or less, a high grade specimen like this should engender spirited floor bidding. (*SEE COLOR PLATE*)

A SECOND EXCITING 1893'S' MORGAN DOLLAR

Lot No. 937

- 937 **1893'S'** Another. Extremely Fine. Light gray toning with lovely underlying mint flash. A decent strike further identifies this example. A shallow pinscratch on the lower part of the cheek along with some moderate hairlines is this coin's major detractor. A very *scarce* date that is on many collectors' want lists.

Lot No. 938

Lot No. 940

- 938 **1894 Brilliant Uncirculated.** Radiant mint frost fills the fields of this champagne-silver toned Philadelphia mint issue. Here is an wonderful opportunity for the date collector to acquire a fully Uncirculated specimen of this *scarce* date.

RARE MINT STATE 1895'O' MORGAN DOLLAR

Lot No. 941

- 941 **1895'O' Brilliant Uncirculated,** or finer. Frosty white lustre radiates in the fields of this **rare date** specimen. Very well struck, with fully formed design motifs and bold, high rims for an attractive and forceful appearance. Essentially untoned and bright white, this specimen exhibits some light marks in the fields and at the cheek that keep it from a much higher grade. However, given the demand for this date among collectors of Mint State Morgan Dollars and the paucity of superior survivors, bidding for this coin will undoubtedly be heated.

- 942 **1895'S' Brilliant Uncirculated.** There are a few bag abrasions on the obverse. Otherwise mild reflectivity is visible over the bold devices.

Lot No. 943

- 943 **1895'S/S' VAM 3. Repunched Mintmark. Brilliant Uncirculated,** with claims to a higher grade. The mintmark was punched in once straight but weakly, and then punched into the die again more strongly but at a tilt, creating this lovely variety! A bold strike is joined by subtle olive-gold toning and the flashy mint lustre that characterize so many San Francisco mint issues.

Lot No. 944

- 944 **1896'O' Brilliant Uncirculated** with claims to the Choice category. Pale russet-golden toning is highlighted by traces of emerald and rose peripheral iridescence. The surfaces display satiny underlying lustre, and the strike is particularly bold for this issue. Entirely honest and original, there are some light intermittent areas of obverse facial toning. Although About Uncirculated examples of this date appear with some regularity, true Mint State specimens are quite scarce indeed! PCGS MS62.

Lot No. 945

- 945 **1896'O' Another. Brilliant Uncirculated.** Glowing amber gold tones at the peripheries beautify this coin's frosty mint lustre and boldly struck devices. Gleaming surfaces are bathed in clear lemon-gold toning and there are no surface marks other than minor ones as is consistent with brief bag storage. Most specimens encountered of this date are AU or nearly Mint State, with a rarefied few coins belonging to the same grade and eye appeal level as this specimen. Simply splendid and a **very rare** date in such a fine state of preservation. (*SEE COLOR PLATE*)

- 977 **1921** Another. **Brilliant Uncirculated**, virtually Choice. Pale rose-gold toning bathes satiny smooth fields and decently struck devices. Fields are generally mark-free, but a peppering of tiny marks at Miss Liberty's cheek keeps this coin from a full Choice grade.
- 978 **1921** A third. **Brilliant Uncirculated**, virtually Choice. Here is a deeply dished example of this high relief design featuring silvery lustre and some nearly imperceptible hairlines in the fields.
- 979 **1922'D' Choice Brilliant Uncirculated; 1922'S' Choice Brilliant Uncirculated.** Wonderful lustre, weak centers; **1927 Choice Brilliant Uncirculated.** Bold lustre, light golden toning. 3 pieces.

- 983 **1924'S' A second. Choice Brilliant Uncirculated.** Milky white lustre is accented by a band of lemon-gold toning across the central obverse. *Scarce.*
- 984 **1925'S' Choice Brilliant Uncirculated**, or finer. Corruscating mint frost defines the quality of this iridescent gold toned Peace Dollar. Storage in a Whitman album has toned the peripheries in smokey gray.
- 985 **1926 Choice Brilliant Uncirculated.** Iridescent gold toning; **1927'D' Brilliant Uncirculated.** Choice reverse, but bagmarked obverse; **1935 Choice Brilliant Uncirculated.** Frosty, with thick rose-gold toning. 3 pieces.
- 986 **1926'S' Very Choice Brilliant Uncirculated.** Here is a boldly struck specimen of this San Francisco date boasting intense mint frost and subtle but beautiful rose-gold toning.

- 989 **1927'S' Redfield Holder. Brilliant Uncirculated**, virtually Choice. Peripheries are ringed in light russet-gold toning on this frosty, milky white specimen of this slightly scarcer issue. This specimens still resides in "slab-like" lucite holders with the characteristic red insert marked "A Silver Dollar from the Redfield Collection," as marketed by Paramount International Coin Corporation.
- 990 **1928 Brilliant Uncirculated**, virtually Choice. Fully lustrous surfaces are aglow with iridescent lavender and yellow-gold toning for an intensely appealing specimen of this Peace Dollar scarcity.

STAGGERING 1934'S' PEACE DOLLAR

Lot No. 991

- 991 **1934'S' Choice Brilliant Uncirculated**, with strong claims to a higher grade. Radiant mint frost illuminates pale pink and gold toning on this coin's near-flawless surfaces. The 1934'S' is a *very scarce* issue, especially when found in such a superior state of preservation. Its surfaces are free from all but the most minor of marks and its strike is about as bold as this date comes. Here is a lovely coin destined for a high grade Peace Dollar set.
- 992 **1934'S' A second.** About Uncirculated. Light, even wear to the high points and some areas of golden tan toning define this coin. Some light album slide marks at the central obverse are noted for completeness.
- 993 **1935'S' Three Rays Below ONE. Choice Brilliant Uncirculated**, with very strong claims to a higher grade. Pearl smooth mint lustre and gently glowing golden-silver toning create this specimen's bold eye appeal. Some extremely minor album slide marks at the cheek and a toning streak at the back of the head are noted for total accuracy.

U. S. PROOF COINS

PROOF COINS OF 1864

As the late Walter Breen noted, "1864 is one of the most difficult years of all" for collectors interested in 19th century Proofs. The Philadelphia Mint struck 470 Proofs of the Silver denominations. By comparison, Indian Cents are startlingly rare, with possibly 370 Copper-nickel, 100 Proof Bronze Indian Cents without engraver's initial 'L,' and as few as 10 with the 'L' produced. The following Proofs coins comprised lot 1296 of our George F. Scanlon Collection Sale, October 24-27, 1973.

Lot No. 1023

- 1023 **1886 Morgan Dollar. Choice Brilliant Proof.** Faint recutting can be seen on the bases of '1', '8' and '6' of the date. Bold reflective glitter, light gold near the rims, a few hairlines emerge under magnification.

PROOF COINS OF 1913

This year was memorable for the introduction of the new Buffalo Nickel, both design types of which were struck in Proof, joining the Matte Proof Lincoln Cent and brilliant Proof Silver Barber Dime, Quarter and Half Dollar. The three minor coins were struck in reasonable numbers (1,500 or more) as in the preceding years, but Silver Proofs were dramatically fewer with only 613 struck. No more than 613 Silver and minor sets could ever have existed. This set comprised lot 1345 in our sale of the George F. Scanlon Collection, October 24-27, 1973.

- 1088 **1843'D' Small Date.** Choice Extremely Fine. Some lustre sparkles in protected areas, wear is trouble-free. Akers assigned Very Fine as the average grade for this elusive Dahlonega date.

Lot No. 1089

- 1089 **1847'C'** About Uncirculated. A pale greenish-gold patina over nicely struck surfaces. A tiny field nick in front of the face is this coin's only major detractor. Still a decent coin worthy of a strong bid.

- 1090 **1847'C'** Another. Choice Very Fine. Light wear, a complement of marks on either side define this scarce Southern Branch mint issue. The cataloger of the James A. Stack Collection called this "the most popular Charlotte Mint Quarter Eagle."

Ex Stack's American Numismatic Association Convention Sale, August 1971, lot 1982.

- 1091 **1850** Extremely Fine. An evenly worn, problem-free coin. Both obverse and reverse are pale yellow gold.

- 1092 **1851'O'** Extremely Fine. Normal wear, this date shows fragments of another digit below '5', a dramatic second '1' appearing at the right of the last number.

- 1093 **1852'O'** About Uncirculated or finer in overall detail. Surfaces are micro-granular, suggesting salt water immersion.

NOTEWORTHY 1854'O' QUARTER EAGLE

Lot No. 1094

- 1094 **1854'O'** The variety with the '54' in the date distinctly separated. **Brilliant Uncirculated** and very well struck for this issue. Satin-frost is embellished by a subtle blush of deep yellow-golden toning. Although lesser quality circulated examples of this date appear with some regularity, Mint State specimens such as the coin offered here are extremely scarce indeed.

- 1095 **1861 Type II, Short Arrowheads. Brilliant Uncirculated** with claims to higher grade. Bold lustre shows a pleasing touch of red-gold near the rims.

- 1096 **1865'S'** The detail is that of a strong Extremely Fine with claims to a higher grade. The toning, however, is a somewhat deep coppery-olive and does not appear to be entirely natural. Boldly detailed and displaying some light disturbance at some areas along the reverse rim. This scarce Civil War issue enjoys a mintage of just 23,376 pieces.

Lot No. 1097

- 1097 **1870'S'** Choice About Uncirculated. Full mint lustre over well struck surfaces. A few hairlines are present but hardly detract at all.

- 1098 **1871'S'** About Uncirculated. Evenly struck and free of any defects that require special mention. This bright, frosty specimen displays areas of coppery toning that are most noticeable on the reverse. *Only 22,000 pieces of this very scarce date were coined.*

- 1099 **1874** Choice About Uncirculated. This reflective coin saw brief circulation. Examination under a glass reveals a scattering of minor marks of relatively little importance. NGC AU55.

Ex John Jay Pittman Collection, Part II (Akers, May 1998, lot 1832).

- 1100 **1878 Brilliant Uncirculated.** An ever so gentle blush of rose-golden toning accents warm underlying mint frost. Evenly struck on either side.

(Enlarged)

- 1102 **1898 Gem Brilliant Uncirculated**, virtually Superb and truly rare thus. Flawless red-gold lustre drenches both sides of this meticulous strike. Akers called this date "decidedly underpriced and underrated." This super-Gem would be especially hard to duplicate. PCGS MS66. (**SEE COLOR PLATE**)

SCARCE 1856'S' THREE DOLLAR GOLD

Lot No. 1159

- 1159 **1856'S'** Choice Extremely Fine and exhibiting subtle coppery lustre in the protected areas of the devices. Orange-gold tones dominate this *scarce* San Francisco mint issue, one of only four dates struck at this branch mint facility.
- 1160 **1860** Choice About Uncirculated. Much remaining prooflike flash accentuates the nicely preserved surfaces. Well struck and quite nice for the grade.
- 1161 **1874 Brilliant Uncirculated.** Boldly assertive red-gold fields complement frosty devices for arresting beauty. An as-struck planchet flaw can be found after UNITED, a minute mark or two are noted for accuracy.
- 1162 **1874** Another. Choice Extremely Fine. Lustre surrounds the devices, deeper red-gold can be seen in the obverse legend.

Lot No. 1163

- 1163 **1878 Brilliant Uncirculated**, nearly of Choice quality. Satin-velvet fields and design features are completed by a rich shade of yellow-golden toning. Examples of this elusive type are always in high demand within the Mint State grade range.
- 1164 **1878** Another. **Brilliant Uncirculated.** Lustrous fields impart an exceptional shimmer to this sharply struck example of an ever-popular later date.

GLORIOUS CHOICE PROOF 1880 THREE DOLLAR GOLD

Lot No. 1165
(Enlarged)

- 1165 **1880 Choice Brilliant Proof.** Exciting two-tone Proof boasts glittering liquid-glass fields and starkly frosted reliefs. A glass reveals the raised line through denticles over OF that identifies Breen's B-1 die used solely for Proofs. *One of only 36 Proofs struck*, and undoubtedly one of the finest survivors of this minuscule mintage. (SEE COLOR PLATE)

DISTINCTIVE 1882 THREE DOLLAR GOLD

Lot No. 1166

- 1166 **1882** The variety that shows a very high re-punched 2 that overlaps the top of the last digit in the date. **Brilliant Uncirculated.** This evenly struck specimen enjoys frosty, subtly reflective obverse and reverse fields. Pale orange-golden surfaces are free of any detractors that warrant special mention. A scarce date, the mintage of which totals *only 1,576 pieces*.

U. S. HALF EAGLES (\$5.00 GOLD)

U. S. CAPPED BUST, SMALL EAGLE REVERSE HALF EAGLE

SHARPLY DETAILED 1795 HALF EAGLE

(Enlarged)

Lot No. 1167

(Enlarged)

- 1167 **1795 Breen 1-A (R-5).** About Extremely Fine. Cleaning long ago gave this coin's yellow-gold surfaces a fascinating matte-like texture. Light tooling at the top of Liberty's cap and to the left of the 'U' of UNITED suggest the filling of a hole or the removal of a jewelry loop from that area. Nonetheless the design details are quite bold and the edge reeding is strong and essentially unaffected. *(SEE COLOR PLATE)*

U. S. CAPPED BUST LEFT HALF EAGLES

ATTRACTIVE 1810 LARGE DATE HALF EAGLE

(Enlarged)

Lot No. 1168

(Enlarged)

- 1168 **1810 Br.1-A. Large Date, Wide 5 D.** About Uncirculated. Very light wear, tawny yellow-gold contrasts with more colorful red-gold surrounding the reliefs. Here is an ideal coin for either type or variety collection. *(SEE COLOR PLATE)*

GORGEOUS CHOICE 1811 SMALL 5 HALF EAGLE

(Enlarged)

Lot No. 1169

(Enlarged)

- 1169 **1811 Br.1-B. Small 5. Choice Brilliant Uncirculated.** Richly glowing lemon yellow lustre bathes both sides of this exquisitely struck coin, a representative of the second variety of the date. Smoothest fields complement meticulously struck devices. The reverse shows a small, slanting '5' the same height as the 'D' in the denomination. The rarity of this date has been obscured by the mint report of 99,851 struck, but the late Walter Breen demonstrated that more than half the coins reported struck bore the date 1810. Akers assigned an average grade of only EF-46 to this date and variety. Dannreuther's study of a decade's records shows 87 auction appearances, but only two examples in higher grade than the present coin. This gorgeous specimen is undoubtedly among the finest known for date and variety. *(SEE COLOR PLATE)*

U. S. CLASSIC HEAD HALF EAGLES

- 1170 **1834 Plain 4.** Extremely Fine and essentially Choice. Very light wear and a few trivial marks are offset by a wealth of peripheral lustre.
- 1171 **1838** Choice Extremely Fine. Moderate wear with some surviving lustre in the protected areas, a number of marks on either side define this specimen. NGC XF45.

U. S. LIBERTY HEAD HALF EAGLES

- 1172 **1842'O'** Very Fine to Extremely Fine. Though circulated, this New Orleans coin presents a pleasing light yellow-gold brightness.
- 1173 **1843** Choice Extremely Fine. Light friction is confined to the obverse hair strands and the Eagle's beak on the reverse. An amber patina adds to the eye appeal. PCGS XF45.
- 1174 **1843** Choice Extremely Fine. A second. A tiny obverse stain hardly detracts from this minimally worn example. Traces of mint lustre are apparent. PCGS XF45.

Lot No. 1175

- 1175 **1844 Brilliant Uncirculated** or virtually so. Appealing yellow-gold lustre covers both sides, a few microscopic tics can be discovered with effort. Akers calls Mint State examples "surprisingly rare."
- 1176 **1845'O'** Choice Extremely Fine with lightly reflective surfaces still remaining. A bold strike further defines this example. A scratch on the cheek and some hairlines present due to a past cleaning but this example still gives a decent appearance. *Scarce.*

FASCINATING 1847'D' HALF EAGLE

Lot No. 1177
(Enlarged)

- 1177 **1847'D'** Choice About Uncirculated, on the cusp of full Mint State. An amazingly deep strike is highlighted by superb original surfaces and richest deep yellow gold color. Close study reveals a small copper spot under the left wing. There were 64,405 Half Eagles struck at Dahlonega this year and few were preserved in the critical years before the importance of mint marks was brought home to collectors by Augustus G. Heaton's 1893 Treatise. Here is a handsome example of this southern branch mint's coinage. (SEE COLOR PLATE)

APPEALING 1849'C' HALF EAGLE

Lot No. 1178

- 1178 **1849'C'** Choice Extremely Fine. Substantial prooflike lustre gives unexpected dazzle to this lightly bagmarked coin's sparkling surfaces. Here is an unusually colorful Charlotte strike.

Lot No. 1179

- 1179 **1849'D'** Extremely Fine. Greenish-gold toning over decent surfaces for a Dahlonega minted coin. A bit weakly struck as is usual but not to its detriment. A few pin scratches near the date area and one on the reverse that is horizontal and extends through the shield and wing. Lustre still remains in the protected areas.

Lot No. 1180

- 1180 **1852'C'** Choice Very Fine. Some lustre sparkles in the protected areas, wear is visible on the higher points of this Charlotte coin's design.

PROOFLIKE 1853'C' HALF EAGLE

Lot No. 1181

- 1181 **1853'C'** About Uncirculated, and perhaps a bit finer. Reflective fields magnify the moderate abrasion that is normally seen. Nice lustre accentuated by greenish-gold toning. A lamination near star 9 and a tiny nick on the cheek are this coin's major detractors. Still a very pleasing example of a coin from this strongly collected Mint.

Lot No. 1182

- 1182 **1860 Easily Brilliant Uncirculated** from the standpoint of wear, however the surfaces exhibit indications of having sustained a past light cleaning. Sharply struck and still offering plenty of vibrant lustre on either side. A very scarce date, the mintage of which is *only 19,825 pieces*.

- 1183 **1861** Choice About Uncirculated. Delightful lustre provides bright appeal. A glass reveals some hairlines after careful scrutiny.

SIGNIFICANT 1862'S' HALF EAGLE

Lot No. 1184
(Enlarged)

- 1184 **1862'S'** Choice About Uncirculated. Bold peripheral lustre surrounds smooth fields showing only the lightest circulation. *One of 9,500 struck*, few of which were saved by numismatists before mintmarks received serious collector recognition. Essentially unknown in Mint State, and only one in this high grade appears in the 10-year Danreuther auction record. David W. Akers correctly called this "one of the really great rarities of the Half Eagle series." (SEE COLOR PLATE)

Lot No. 1185

- 1185 **1868'S'** Choice Very Fine and free of any noteworthy defects. The obverse displays hints of coppery toning in the devices. The reverse is a bit paler. This very elusive date is quite desirable in any condition.

HIGH GRADE 1874 HALF EAGLE

Lot No. 1186
(Enlarged)

- 1186 **1874** Choice About Uncirculated, on the cusp of full Mint State. A sharp strike joins bold prooflike glitter with a scattering of minute contact ticks recalling bag storage or shipment. Here is a very high grade example of a rare date, to which Akers assigned an average grade of only Choice Very Fine. *One of 3,488 business strikes produced*. NGC AU58. (SEE COLOR PLATE)

Lot No. 1187

- 1187 **1874'S'** The mintmark is rather weak as is typically the case for examples of this date. A strong Very Fine, nearly Extremely Fine in terms of wear. There is a tiny, rather fresh dig in the right obverse field that interrupts the delicate coppery toning. The surfaces are otherwise smooth and quite pleasing. Very scarce as *only a mere 16,000 pieces were struck*.

LUSTROUS CHOICE 1879'S' HALF EAGLE

Lot No. 1188

- 1188 **1879'S'** Choice Brilliant Uncirculated with solid claims to a higher grade. Lovely red-gold lustre complements a bold strike on this especially select specimen of an elusive San Francisco date.

- 1189 **1880 Brilliant Uncirculated.** Here is a well struck orange-golden example that is drenched in rich, frosty mint bloom.

- 1190 **1880** About Uncirculated; **1882'S'** Extremely Fine; **1903'S'** About Uncirculated. The first and last show peripheral lustre, the second has dark toning around the reliefs. 3 pieces.

NEAR-MINT STATE 1880'CC' HALF EAGLE

Lot No. 1191

- 1191 **1880'CC'** Choice About Uncirculated. A strong impression of the dies results in full detail including an unusually crisp Carson City mint mark. 51,017 were struck and as David Akers writes, "most known examples are well worn and specimens above EF are rare." The appearance of this high grade specimen offers collectors an unusual opportunity to acquire a truly high grade Carson City gold piece.
- 1192 **1881 Brilliant Uncirculated** and approaching a Choice designation. Sharp definition is complemented by shimmering silk-like mint lustre. There are a few light obverse marks at Liberty's jaw, otherwise this example is fully Choice.

Lot No. 1193

- 1193 **1882** A very pleasing **Choice Brilliant Uncirculated** example. There is a rich shade of orange-gold that accompanies vibrant underlying satiny mint bloom. Graded a rather conservative PCGS MS63 in a first generation holder.

Lot No. 1194

- 1194 **1882'CC'** A strong About Uncirculated or better specimen and still retaining its fair share of frosty mint bloom. Close scrutiny reveals some ever so trivial lines on either side that barely detract. A scarce and highly collectible Carson City Mint issue.
- 1195 **1885'S' Brilliant Uncirculated**, virtually Choice. Full lustre provides boldest cartwheel reflectivity.
- 1196 **1885'S', 1907, 1908 Liberty.** Choice About Uncirculated. The first coin was wiped at one time, the companions are nearly full Mint State. 3 pieces.

Lot No. 1197

- 1197 **1890'CC'** **Brilliant Uncirculated** and very close to full Choice condition. Creamy surfaces that drip with lustre. Well struck with a nice overall appearance. A small slag mark near the tip of the bust.
- 1198 **1890'CC'** Another. **Brilliant Uncirculated** or perhaps finer. Assertive light yellow-gold surfaces bear scattered microscopic ticks.
- Ex Dr. Edward B. Willing Collection (Bowers & Ruddy Galleries, June 1976, lot 129).*
- 1199 **1893'S' Brilliant Uncirculated**, virtually Choice. Radiant mint lustre exudes from this frosty pale gold jewel. NGC MS62.

RARE MINT STATE 1894'O' HALF EAGLE

Lot No. 1200

- 1200 **1894'O'** The last year of Half Eagle production at the New Orleans Mint. **Brilliant Uncirculated**, nearly of Choice quality. Traces of reflectivity highlight fields that exhibit an abundance of mint frost. The reverse is very sharply struck. The obverse reveals only a bit of central softness at Liberty's hair curls. With there being a total mintage of *only 16,600 pieces* coined of this date, this **rare** issue is among the most elusive Liberty Head Half Eagles dated after 1893.
- 1201 **1895** About Uncirculated or better and displaying signs of a past gentle cleaning; **1906** The variety with a Closed 6 in the date. Choice About Uncirculated. The fields and devices on either side retain their full complement of frosty mint lustre. 2 pieces.
- 1202 **1896 Brilliant Uncirculated**, virtually worthy of a Choice classification. Evenly struck, premium quality surfaces are bathed in compelling mint frost. *Only 59,063 pieces were struck* of this uncommon date.
- 1203 **1899, 1907'D' Brilliant Uncirculated.** The first lustrous coin is nearly Choice, the companion highly appealing. 2 pieces.
- 1204 **1900** About Uncirculated. Lovely amber surfaces enhance mildly worn devices; **1902** About Uncirculated. Problem-free surfaces are coupled with devices that exhibit light friction. 2 pieces.
- 1205 **1900'S' Brilliant Uncirculated.** Close scrutiny reveals one or two trivial field ticks. Otherwise this satiny example would lay claim to a Choice designation.

- 1206 **1901 Brilliant Uncirculated.** All devices have splendid detail and are combined with glowing mint radiance. A small field abrasion is visible adjacent to Liberty's forehead.

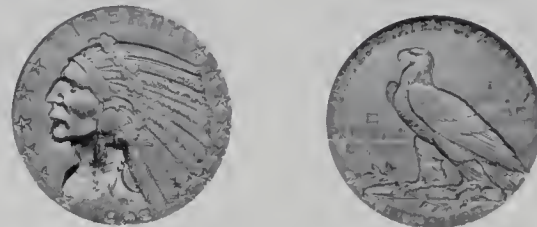

Lot No. 1207

- 1207 **1901'S' Choice Brilliant Uncirculated** with claims to a Gem distinction. Vibrant, satiny lustre accompanies wonderfully smooth surface quality. A lovely example that is far above the norm for even those with the strictest standards.
- 1208 **1901'S' Another. Brilliant Uncirculated.** A few minor field striations are hardly a detriment to this otherwise vividly detailed specimen. Full mint lustre creates a wonderful visual effect.
- 1209 **1902'S' About Uncirculated.** Gently cleaned some time ago, but still quite attractive; **1905 About Uncirculated.** Antique gold lustre enhances minimally worn devices. 2 pieces.
- 1210 **1903 Brilliant Uncirculated.** Traces of mint lustre are apparent in the devices.
- 1211 **1903'S' Brilliant Uncirculated,** and nearly deserving of a Choice designation. A sharply struck example that boasts glowing surfaces.
- 1212 **1903'S' Another. Brilliant Uncirculated.** Plentiful and appealing lustre distinguishes this pleasing example.
- 1213 **1904 Brilliant Uncirculated.** Champagne surfaces highlight splendid central figures. Would grade Choice if not for one or two trivial obverse nicks.
- 1214 **1906'D' Brilliant Uncirculated,** on the cusp of Choice. Here is an outstanding example of the first date of Denver coinage of this denomination.
- 1215 **1906'S' About Uncirculated** and exhibiting its fair share of icy mint frost. Evenly struck and appealing.
- 1216 **1907'D' Choice Brilliant Uncirculated.** A splendidly lustrous specimen of the second Denver date offers full yellow-gold lustre of delightful quality.

U. S. INDIAN HEAD HALF EAGLES

- 1217 **1908 Brilliant Uncirculated** and bordering on Choice. Gently glowing gold presents a fascinating hint of pale green.

Lot No. 1227

- 1227 **1909'O'** Another. Extremely Fine in strict terms of wear. This coin offers another opportunity to acquire a highly collectible example of the only New Orleans date of the Indian Series. Some red-gold lustre glimmers in the recesses, a glass finds some field marks.

The overall strike is quite acceptable for a coin of this *scarce date*, although the mintmark is not entirely bold. With Mint State examples being very difficult to acquire, the coin offered here is a viable alternative. NGC AU58.
